DEDICATION

It is difficult to write a dedication for this year's Town Report since it is dedicated to six people who passed on during 1975. The Town will be forever indebted to Mr. William Barrett, Mr. Frank Bartlett, Dr. James Browning, Mr. Daniel Callahan, Mr. Alton Cavicchi and Mrs. Jane Gellar for the many, many years of selfless service they gave to the Town. There is hardly an aspect of today's Plymouth that has not been affected or shaped by at least one of these individuals. The lives of each one of us have been touched by these people and they will continue to live on as a result of their actions over the years. This dedication is thus one small way in which we can at least acknowledge our thanks to them for the richness of their lives.

In Memoriam

William H. "Cozy" Barrett
1901-1975

William H. Barrett, better known to generations of Plymoutheans as "Cozy," died on Nov. 11.

Cozy Barrett was born and raised in Plymouth and attended the town's schools. Although his formal education ended in the fifth grade, he did attend a vocational school which was located over the South St. Fire Station until he was 15.

Barrett said that he gained much from the practical experiences of life and later attributed his understanding of politics and people, as well as the workings of town government, to the "College of Hard Knocks."

With an instinct for politics, he ran for the office of selectman in 1939, as a candidate of the working class—the "Poor Man's Champion." He won easily that year and was rarely out of office in the 36 years that followed.

Barrett was elected to the Board of Assessors in 1948, a position he held until 1974, when, in accordance with provisions of the Home Rule Charter, elected assessors were replaced by appointees of the selectmen.

In addition to his long service as a selectman and assessor, Cozy Barrett served as a member of the charter commission and was also a town meeting member for many years. A life-long Democrat, he was active in party politics and was recognized as a force at the county and state levels.

He served with the Navy during World War I and with the Army in World War II. He also served an enlistment with the local National Guard for three years following WW I.

Barrett's death, which came during the November special town meeting, was noted with the membership standing in silent tribute. Moderator Earl Rose remarked: "If this is the passing of an era, then a sense of shame should fall on all of us who only approach our commitments half way. His energy is gone, but perhaps each of us can reproduce the excitement we felt with Bill, by saying what we believe without reserve—by surrendering to the joy of battle and serving our own beliefs with intensity and love."

In Memoriam

Frank Bartlett

Born 1904 Died Feb. 1975

Served on Conservation Commission 1972-1975

While on the Conservation Commission, Frank served the Town of Plymouth as a conscientious and hardworking guardian of our local environment. He was especially sensitive to the town's need for woodlands and open-space areas necessary to retain the rural character of the town. Frank actively participated in all the commission programs including the Beach Stabilization Project, Think-Pink, Tree-O-Rama as well as being instrumental in the purchase of an excellent conservation property located off Beaver Dam Road.

In Memoriam

Dr. J. Robert Browning

November 28, 1923 January 10, 1975

Plymouth School Committee
1961-1975

Beloved physician, Dr. Browning found time in his very busy life to serve the children within our schools. Tremendously active within his profession, he found the energy and the time to serve as well as a Town Meeting Member. Following the death of his oldest son, James R. Jr., the doctor gave much of himself to the establishment of the Plymouth Community Recreation Center. Even unto the end his interest was found in helping people to find greater joy in living within our community.

In Memoriam

Daniel J. Callahan 1912-1975

Mr. Callahan was a member of the Board of Cemetery Commissioners from October 1966, until the Board was dissolved by the implementation of the Department of Public Works in November 1974. He served as Chairman from March 1969. Mr. Callahan came to the Board with a previous knowledge of the basics of cemetery operation; combined with his sympathetic understanding of human nature made him well remembered, as well as a valuable asset to the Board.

In Memoriam

Alton S. Cavicchi

September 22, 1916 **February 7, 1975**

Chairman, Plymouth School Committee,
Served 1953-1968
Chairman, Plymouth-Carver Regional
School District Planning Committee
Past President, Massachusetts
Association of School Committees
Executive Director, Massachusetts
Association of School Committees

Mr. Cavicchi was respected most by those who best understood his interest in public school education. Literally, he became a student of school management and direction. His efforts in behalf of the Plymouth schools was boundless. Following his retirement as Chairman of the School Committee, he continued to assist as a most valuable resource person and as Chief Negotiator in contract development with the professional staff. He gave unstintingly of his vast energy to the cause of our schools. Indeed, much of what they are became so through his encouragement.

In Memoriam

Jane Mathison Gellar

September 19, 1915 **November 6, 1975**

Plymouth School Committee
1959-1970
Plymouth-Carver Regional School District Committee
1961-1969

Jane Gellar richly deserved the respect of her Manomet neighbors. In truth, she earned throughout her years of service the love and the respect of the entire community. No one has brought more of truth and simple beauty to the task of public service. In addition to her tremendous interest in both civic and church activities, Mrs. Gellar for many years served as a member of our Mental Health Committee. Simply knowing this truly great woman has been a joy to a great many members of our community.

PREFACE

The reader of this report will find that the organization of the material parallels the governmental structure of the Town Government. The report is divided into two parts: the first part contains the actions of the legislative arm of the town government while the second part contains the reports on the day-to-day operations of the departments. These reports have been grouped according to functional responsibility. The functional groupings are:

- Administrative Services
- Boards and Commissions
- Financial Services
- Planning Services
- Health Services
- Human Services
- Safety Services
- Inspectional Services
- Public Works Services
- Educational Services

The purpose of an annual report is to provide the citizen with information that he is unable to acquire without putting in a great deal of time and effort digging into public records at the Town Office Building. It is not easy to know whether the Town Reports meets the needs of the citizen without some feedback from the reader. Written comments are therefore invited. Please indicate the parts of the report that you find good and would not like to see changed, and those parts of the report that you feel should be changed. You should submit your comments to the Executive Secretary in care of the Town Office Building.

APRIL SPECIAL TOWN MEETING
APRIL 15, 1975

A special town meeting was called for April 15, 1975 by the Board of Selectmen. This Special was held within the Annual.

The Meeting was called to order by the Moderator, Earl S. Rose, Jr., at 7:50 P.M. The number of Town Meeting Members present was 90 as reported by checkers Robert Marvelli and Arsene Strassel, II.

At the beginning of this meeting Mr. Burke moved that Articles 5, 6, and 7 be considered first on the agenda for the evening. It was so VOTED.

ARTICLE 5: To see if the Town will vote to acquire by purchase, or accept as a gift, a certain parcel of land with the buildings thereon commonly known as the property of the Sisters of Divine Providence on Court Street and make an appropriation therefor, including the expenses of acquiring title, and to determine whether such appropriation shall be made from available funds, including the use of so-called Revenue-Sharing Funds, or by borrowing or take any other action relative thereto.

BY PETITION: Lydia J. Gardner, et al

ACTION: Mr. Monteiro moved that the Town vote to acquire by purchase, a certain parcel or parcels of land with the buildings thereon, commonly known as the property of the Sisters of Divine Providence on Court Street, as shown on Plat 14, Lots 6, 8 and 9 of Plymouth Assessors' Map, and raise and appropriate the sum of $415,000.00 including the expenses of acquiring title, said appropriation to be from United States Federal Revenue Sharing Funds, and further that an Advisory Committee be appointed by the Moderator to the Board of Selectmen to approve of the uses for this property, and further that the Moderator appoint a committee of five to recommend and approve to the Board of Selectmen now and in the future uses for this property, said committee to report to the Town on or before November 1, 1975.

Mr. West moved to amend Art. 5 by deleting the word "Advisory". This Motion was Passed. By a vote of 64 in the Affirmative, and 20 in the Negative, the motion as amended was PASSED.

ARTICLE 6: To see if the town will vote to authorize the Board of Selectmen, with the approval of the Planning Board, and the Council on Aging, to sell, transfer, lease or otherwise convey to the Plymouth Housing Authority a portion of the property described in the previous article for the construction of housing for the elderly and/or other services to or for the elderly, or take any other action relative thereto.

BY PETITION: Lydia J. Gardner, et al

ACTION: No Action taken on this Article.

ARTICLE 7: To see if the Town will vote to appropriate funds for the maintenance, repair and operation of said property known as the

Sisters of Divine Providence property on Court Street for purposes related to the civic and social needs of the Town, and to determine whether such appropriation shall be made from available funds, including the use of so-called Revenue-Sharing funds or by borrowing or take any other action relative thereto.

BY PETITION: Lydia J. Gardner, et al

ACTION: Mr. Monteiro moved that the Town appropriate from Available Funds the sum of $10,000.00 to the Dept. of Public Works for the maintenance, repair and operation of property on Court Street, as shown on Plat 14, Lots 6, 8 and 9 of the Plymouth Assessors' Map, for purposes related to the civic and social needs of the Town. This Motion was PASSED.

SPECIAL TOWN MEETING
JUNE 3, 1975

The Meeting was called to order by the Moderator, Earl S. Rose, Jr., at 7:48 p.m. on Tuesday, June 3, 1975, in the Plymouth-Carver Regional High School. The number of Town Meeting members present was 87 as reported by the records of checkers Robert Marvelli and Arsene Strassel, II. The Moderator declared a quorum present. The Town Meeting members were sworn to the faithful performance of their duties by the Town Clerk Andrew J. Collas.

ARTICLE 1: To see if the Town will vote to authorize the Board of Selectmen to purchase or take by eminent domain land for school purposes lying on the southeasterly side of Carver Road (Route 44) belonging to Irving J. and Maria Y. White further described as Lot 3 on Plat 108 of the Assessors' Map of the Town and make an appropriation for the expense of acquisition of land acquiring title, and other incidental expenses and to determine whether such appropriation shall be raised by borrowing, appropriation from available funds or otherwise, or take any other action relative thereto.

PERMANENT ELEMENTARY SCHOOL BUILDING COMMITTEE

ACTION: No action was taken on this Article.

ARTICLE 2: To see what action the Town will take with regard to constructing and equipping two elementary schools and making an appropriation therefor to be expended under the direction of the Permanent Elementary School Building Committee and to determine whether such appropriation shall be by borrowing under Chapter 44, General Laws, by appropriation from available funds, by use of Stabilization funds, or take any other action relative thereto.

PERMANENT ELEMENTARY SCHOOL BUILDING COMMITTEE

ACTION: Mr. Morgardo moved that the Town vote to raise and appropriate the sum of $2,945,000.00 for constructing, originally equipping and furnishing an elementary school; that to raise this appropriation the treasurer with the approval of the Selectmen is authorized to borrow $2,945,000.00 under Chapter 645 of the Acts of 1948 as amended and issue bonds or notes therefor payable within 10 years from their dates; and that the Permanent Elementary School Building Committee is authorized to take all action necessary to carry out this vote. This motion was passed unanimously.

ARTICLE 3: To see if the Town will vote to accept as a gift 1.02 acres of land of the Herman J. Bernhardt et ux property located on the northwest side of Bourne Road, being a portion of Lot 4, Plat 121 of the Plymouth Assessors' Plans, or take any other action relative thereto.

FIRE STATION STUDY & BUILDING COMMITTEE

ACTION: It was voted unanimously that the Town accept as a gift 1.02 acres, more or less, of the Herman J. Bernhardt, et ux, property located on the northwest side of Bourne Road, being a portion of Lot 4, Plat 121 of the Plymouth Assessors' Plans, as shown on a plan entitled "Plan of land in Plymouth

proposed to be acquired from Herman J. Bernhardt, et ux for a fire station site, May 8, 1975, Newell B. Snow, R.L.S.," this lot hereby accepted includes the land previously conveyed to the Town, July 16, 1974, recorded in the Plymouth Deeds, Book 4006, Page 151, this land to be restricted to use thereof for fire station purposes.

ARTICLE 4: To see if the Town will vote to authorize the Board of Selectmen to grant to the New Bedford Gas & Edison Light Company and the New England Telephone and Telegraph Company an easement to locate, construct, relocate, operate and maintain electric distribution and telephone lines with all equipment and appurtenances deemed necessary therefor, over, across and upon a certain parcel of land known as the Cedarville Fire Station Lot located on Hedges Pond Road, or take any other action relative thereto.

SELECTMEN

ACTION: It was voted unanimously that the Town vote to authorize the Board of Selectmen to grant to the New Bedford Gas & Edison Light Company and the New England Telephone and Telegraph Company an easement to locate, construct, relocate, operate and maintain electric distribution and telephone lines with all equipment and appurtenances deemed necessary therefor, over, across and upon a certain parcel of land known as the Cedarville Fire Station Lot located on Hedges Pond Road.

OTHER BYLAW CHANGES:

Page	Para.	Action & Explanation
2	2	Delete Paragraph 2. The referenced plan is no longer applicable to cities and towns.
5	3i	The first sentence of this paragraph is to be retained while the rest of the paragraph is to be eliminated.

5	(3j)	A new paragraph labeled (3j) is to be added. It is "The Personnel Board shall be the sole depository of all official employment records which shall be retained under the day to day control and administration of the Executive Secretary. All Personnel files shall be confidential. Each employee may view his own file and the head of a department may view the file with respect to those employees that come under him.
6	3j	This paragraph will now be labeled 3k and the date of February 20 is to be changed to Feb. 1.
7	5f	This section should be deleted and replaced by "An employee occupying a seasonal position shall be paid the minimum rate of pay for each applicable position."
8	Line 7 of 6a	Amend by changing "four months" to "60 days." On the same line add the new sentence "It is recommended that all such requests should be forwarded at least four months prior to a Tn. Meeting in order that appropriate consideration may be given to the request." After the words "regular Town Meeting."
16	Sec. 12	Delete the present Section 12 and replace it with the following: "Employees occupying positions in seasonal employment classified under the Labor and Custodial Groups shall be compensated at the minimum rate of compensation for that grade level. Employees occupying seasonal positions in part-time continuous employment shall be compensated for hours worked at the appropriate rate set forth in Schedule C in Section 8.
16	Sec. 13	In the Group Work Week definition, the Clerical Group week of 37.5 hours has to be changed to "37.5 through 40 hours" to make it agree with the spirit of the Fair Labor Standards Act as well as with the fact that overtime begins after forty hours.
17	Sec. 13	The present footnote (a) should be deleted and replaced by "The basic work week shall be a work period of at least seven and not more than 28 consecutive days." The footnote designator (a) should be added after 40 hours for Police full-time in the Public Safety Group above this footnote.
19	Sec. 16c	Amend by inserting "five" years in place of "ten" years.
19	Sec. 16d	Amend by inserting "ten" years in place of "twenty" years.
20	Sec. 16	A new paragraph labeled (k) is to be added to this section. It is "Any time off a Department Head takes must be verified with the Executive Secretary before it can be taken except for elected officials who shall notify the Executive Secretary.
20	Sec. 17a	To make the by-law consistent with recent changes in the law, "calendar year" should be changed to the "fiscal year."
20	Sec. 17g	Amend to include after the words "of its own motion" the phrase "or the Executive Secretary."
21	Sec. 19	A new paragraph labeled (c) is to be added and this section is "Any time off a Department Head takes must be

verified with the Executive Secretary before it can be taken except for elected officials who shall notify the Executive Secretary."

Mr. Withington moved to amend the motion of Mr. Bishop by deleting the proposed changes of adding paragraph (k) under Sec. 16, and by deleting from the proposed changes the added paragraph (c) under Section 19. This Motion was PASSED, therefor, these changes will not be made to the Personnel bylaw.

21	Sec. 20 Line 4	Amend by adding after the word "Board" the words "or the Executive Secretary."
22	Sec. 22-1	The phrase "which the employer wishes to fill" is to be added to this section after the words "becomes vacant" in line 1.

Mr. Sears moved to amend the motion of Mr. Bishop by deleting the proposed change to section 22-1 on page 22 "which the employer wishes to fill" to be added to this section after the words "becomes vacant" in line 1. This Motion to amend was Not Passed, therefor, the change as proposed will be made to the Personnel Bylaw.

22	Sec. 22-2	Delete entire paragraph since it is not applicable to the employees of the Town.

Mr.Morgardo moved to amend Mr. Bishop's original motion calling for salary increases, and moved to eliminate the "S" schedule from the original motion. By vote of 18 Affirmative, and 59 Negative, this motion to amend was Not Passed.

Mr. Tarantino requested permission of the Town Meeting Members for Mr. George McInerney to address the meeting for the purpose of presenting rebuttal to the Finance Committees' arguments as regards the AFL-CIO and Clerical contracts. It was voted to allow Mr. McInerney to speak.

Mr. McInerney, (as negotiator for the Board of Selectmen) explained said contracts to the Town Meeting. Mr. Tarantino spoke in response to questions and requested Town Meeting to accept said contracts. The original motion of Mr. Bishop, with accepted amendments as made from the floor, was voted and PASSED.

At 11:05 p.m. it was moved, and so voted, to adjourn.

SPECIAL TOWN MEETING: SIXTH SESSION NOVEMBER 18, 1975

The Meeting was called to order by the Town Clerk, Andrew J. Collas, at 8:00 p.m. Tuesday, November 18, 1975, at the Plymouth-Carver Regional High School, in the absence of Mr. Earl S. Rose, Jr. The number of Town Meeting Members present was 91 as reported by the records of the checkers Robert Marvelli and Arsene Strassel, II. The Moderator declared a quorum present.

Mr. Tarantino moved that the Town Meeting vote to appoint Reubin Winokur as Temporary Moderator for the duration of this Special

Town Meeting. This Motion was PASSED. Mr. Winokur was sworn to his duties by the Town Clerk.

Mrs. Balboni moved that the Town Meeting NOT adjourn this evening until all of the articles of this warrant have been completed. This Motion Was Not Passed.

ARTICLE 19: To see if the Town will raise and appropriate from available funds a sum of money for installing power and telephone lines and poles and lights for the protection of Town property at Plymouth Beach, or take any other action relative thereto.

PLYMOUTH BEACH STUDY COMMITTEE

ACTION: Mr. Morgardo moved that the Town vote to authorize the Department of Public Works to expend up to $5,000.00 of the balance in the Plymouth Beach Bathhouse Construction account for installing underground power and telephone lines, poles and lights to said bathhouse, and raise and appropriate the additional sum of $5,500.00 from available funds for the same purpose. (Amt. available to be spent $10,500.00) This Motion was PASSED.

ARTICLE 20: To see if the Town will vote to raise and appropriate from available funds, a certain sum of money to permit the Town to participate in the Plymouth County radio system, this sum to be used in

conjunction with other sums appropriated by Federal, State, and County grants, or take any other action relative thereto.

POLICE DEPARTMENT

ACTION: Mr. Tarantino moved that the Town vote to raise and appropriate from available funds the sum of $1,709.20 for the purpose of joining the Plymouth County Radio System, such appropriation to be matched by Federal and State and County shares necessary for implementing the Plymouth portion of the County-wide radio system. This Motion was PASSED.

ARTICLE 26: To see if the Town will vote to authorize the Board of Selectmen to purchase or take by eminent domain land for school purposes on the easterly side of Federal Furnace Road, further described as Lot 5, Plat 99, of the Assessor's Maps, Town of Plymouth, and make an appropriation for the expense of acquisition of land; acquiring title and other incidental expenses and to determine whether such appropriation shall be by borrowing, from available funds or otherwise, or take any other action relative thereto.

PERMANENT ELEMENTARY SCHOOL BUILDING COMMITTEE

ACTION: It was voted unanimously that the Town authorize the Board of Selectmen to purchase a parcel of land for school purposes being a 20 acre portion of Lot 5, Plat 99, of the Assessors' Maps of the Town of Plymouth, presently owned by Frederick A. Wood and described as follows: Beginning at a point on the Easterly side of Federal Furnace Road, said point being the Northeasterly corner of the Frederick A. Wood property; thence Easterly 1250 feet, more or less, by the land of William B. and Martha B. Stearns, and the land of Willard Rhodes to a point for a corner; thence Southerly 700 feet to a point for a corner; thence Westerly 1250 feet, more or less, to Federal Furnace Road for a corner; thence Northerly 700 feet, more or less, along Federal Furnace Road to the point of beginning, and raise and appropriate from available funds the sum of $70,000.00 for the expenses of acquisition of land, acquiring title and other incidental expenses, said land to be under the jurisdiction of the Permanent Elementary School Building Committee.

ARTICLE 27: To see what action the Town will take with respect to constructing and equipping an elementary school, including bonding costs, making an appropriation therefor to be expended under the direction of the Permanent Elementary School Building Committee and to determine whether such appropriation shall be raised by borrowing under Chapter 44, of the General Laws, appropriated from available funds, use of stabilization funds or take any other action relative thereto.

PERMANENT ELEMENTARY SCHOOL BUILDING COMMITTEE

ACTION: Mr. Morgardo moved that the Town vote to raise and appropriate the sum of $2,700,000.00 for construction, originally equipping and furnishing an elementary school; that to raise this appropriation the Treasurer with the ap-

proval of the Selectmen is authorized to borrow $2,700,000.00 under Chapter 645 of the Acts of 1948, or General Laws, Chapter 44, Section 7 (3), as amended and issue bonds or notes therefor payable within ten years from their dates; and that the Permanent Elementary School Building Committee is authorized to take all action necessary to carry out this vote; also, that $20,000.00 be appropriated from available funds for paying legal expenses, printing costs, fees, and all other incidental expenses in connection with the issuance of bonds for school construction.

Mrs. Balboni moved to amend Mr. Morgardo's motion by adding that the Town Meeting recommend that the design, construction, materials and exterior elevations of said school be substantially the same as the existing South and West Elementary Schools. Mr. Morgardo's motion, as amended by Mrs. Balboni, was voted and PASSED UNANIMOUSLY.

ARTICLE 28: To see if the Town will vote to raise and appropriate from available funds a sum of money to be expended by the School Committee for the purpose of installing a Fire Alarm and Smoke Detection System at 128 Court Street, or take any other action relative thereto.

ADMINISTRATIVE SERVICES

The groups' of documents contained in this section on Administrative Services contains reports from those departments whose main function is to service the other parts of your local town government. This group consists of four functions: The Executive Function, the Legal Function, the Personnel Function, and the Records Keeping Function. Each of these groups functions are represented by the Selectmen's Office, Town Counsel, the Personnel Board, and the Town Clerk respectively. The Executive Function has the responsibility of coordinating all town services as well as setting policy and guidelines for accomplishing the mandates of the Town Meeting. In the Plymouth Town Government the Board of Selectmen is the Chief Executive Board charged with the responsibility of setting policy consistent with the direction set by the Town Meeting. The Executive Secretary is the chief administrative officer of the Town charged with seeing that the policy set out by the Board of Selectmen is put into operation. Town Counsel is the Town's counterpart of the Attorney General of the State. He is charged with giving rulings and opinions on the legal aspects of running the town government. The Personnel Board has the charge of establishing policy regulating all Town personnel. This includes recommending compensation schedules and job descriptions for the positions necessary to carry out town services. The Executive Secretary has the responsibility of implementing this policy on a day to day basis. The Town Clerk is our counterpart of the Secretary of State and he is the keeper of all official town records as they relate to our town functioning. His record keeping includes keeping track of births, deaths, marriages.

BOARD OF SELECTMEN

The Story of 1975 is Continuing Change

The story of 1975 has been continuing change. Change derived from the Charter as well as change brought about by the natural political process. Late in the year the Board was saddened by the death of Selectman Barrett. Mr. Barrett's unfortunate passing away coupled with the election of two new members to the Board in April created the situation where more than half of the Board members were new with less than one year's service. This condition is unprecedented during the past twenty years. The new members elected to the Board in April were Kenneth A. Tavares and Clarence R. Krueger. An election to fill Mr. Barrett's position was scheduled for the first week of the new year.

A good part of the year has been spent in the structural development of the Public Works Department. The Department was created by the Charter out of the Parks and Recreation Department, the Water Department, the Sewer Dapartment, the Tree Department, the Highway Department, Building Maintenance, Sanitation and the Sanitaries. The Departments have become divisions under the administrative direction of the Director of Public Works and an Assistant Director of Public Works. The Board is still enmeshed in deliberations on the construction of one more division to pull together other non-division functions that come under Public Works. Among these functions are landfill sites, garbage pick-up, rubbish pick-up, building maintenance, sanitaries, and motor vehicle maintenance The Board is also considering the separation of the Engineering Division from Public Works per se and creating an Engineering Department that would be responsible for engineering design work as well as inspectional services. Such a separation would make it easier to give engineering support to other departments such as the Planning Board, thus making the Town less dependent upon outside engineering firms. These discussions will continue into 1976.

The Board began the systematizing of road work to be done at the Annual Town Meeting. It has developed a set of criteria and regulations for classifying streets into the categories of Roads to be Laid-Out, Roads to be Accepted, Roads to be Developed, and Roads to be Constructed. The Board has taken this step in order to assign road priorities for planning and maintenance purposes. One important offshoot for the citizen is that he will know when to reasonably expect the Town will provide necessary Public Works services on town roads. This problem is a major one in Plymouth. The problem is a result of two conditions: 1) Because of the enormous land area of the Town coupled with a very low population density over the years very little work has been done historically on many of the roads and 2) the enormous growth in population during the last seven years has created demands for services that outstrip the Town's ability to respond while maintaining a stable fiscal policy. This is a problem that will take many years to resolve. Any solutions to the dilemma are intimately tied to solid long range planning.

To provide an additional means for handling road problems, the Board asked the Annual Town Meeting to accept Section 6H of Chapter 40 of the Massachusetts General Laws. This section of the General Laws gives the Selectmen the flexibility of doing repair work on non-accepted town ways at no risk to the taxpayer. The content of this section which the Town Meeting adopted is shown in Table 1.

> Making of Repairs on Certain Private Ways by Municipalities Without Liability for Damage.
>
> A city which accepts this section by vote of its city council, subject to the provisions of its charter, or a town which accepts the same at an annual town meeting, may make repairs on private ways which have been open to public use for six years or more, and in such cases section twenty-five of chapter eighty-four shall not apply.
>
> A city or town which makes such repairs under the provisions of this section shall not be liable on account of any damage whatever caused by such repairs.
>
> The provisions of sections six E, six F and six G shall not apply in or be accepted by any city or town which accepts this section. (1961, 319.)

TABLE 1: Section 6H, Chapter 40 of the Massachusetts General Laws Adopted by the Town at the Annual Town Meeting.

When the Town Meeting voted this as Article 15 of the Annual Town Meeting, it specified that the Board of Selectmen and the Planning Board draft a by-law regulating the use of this section of the General Laws. (The reader should turn to Article 15 of the Annual Town Meeting in this Town Report.)

The Town received an $89,900 Housing and Urban Development Grant that is renewable for each of five years at varying amounts. After holding public hearings in conjunction with the legal requirements, the Board of Selectmen submitted the projects shown in Table 2 to HUD for approval. The Transportation project is a demonstration to test the need for providing public transportation between the various village centers and the shopping and working areas of the town. This project will be run on a dial-a-ride basis and last for twelve months.

Amount	Project	Run By
$ 4,568	Community Health Project	Plymouth Community Nurse Program
$45,450	Transportation Project	South Shore Community Action Council
$ 950	Publication of a Social Services Brochure	Social Developers of the South Shore
$38,032	Rehabilitation of Sisters of Divine Providence Property	Town now that we have purchased the property

TABLE 2: Approved Projects under Community Development Block Grant

The single largest purchase made by the Town was the acquisition of the Sisters' of Divine Providence property at 128-130 Court Street which was approved by the Town Meeting during the April Special Town Meeting held within the Annual. The actual purchase of the property was completed during the summer. The School Department has been using one of the main buildings as a kindergarten since school opened in September. An Advisory Committee to the Board of Selectman has been determining the uses to which the buildings should be put. One of the first tenants has been the Council On Aging. At present the Advisory Committee is discussing uses of part of the property for Housing for the Elderly. These discussions arose because the Department of Community Affairs would not approve the Nick's Rock Road site for housing for the elderly.

Late in the year the Chief of Police notified the Board of his intention to retire shortly after the New Year. Sometime in 1976 a new chief will be appointed by the Board after a Personnel Administration (formerly Civil Service) exam is given, scored and an eligible list of candidates is forwarded to the Board. This retirement and subsequent appointment come at a time when the Police Department is undergoing rapid changes. The Department will have to expand if the Town is going to provide the necessary patrol services required throughout the Town.

Similar expansion occurred in the Fire Department this year with the manning of the new Seven Hills Fire Station, as well as permanent manning of the Manomet and Cedarville fire stations. This expansion of safety services has come about as a result of the steady growth in population and housing. This growth has continued in spite of the poor state of the economy as a whole.

The Board instituted a new policy of holding meetings in each of the precincts. By this means, the Board is able to hear directly from citizens in each precinct what their sense of needs and priorities are for each area of the Town. These meetings have been very fruitful for the Board. The most consistant and common requests are for the paving of many of the private roads within the Town. It will not be possible to meet these burgeoning demands without embarking on a very comprehensive capital budgeting program. Such a program will be very costly.

To date the tax rate has held stable but it is not going to be possible to keep it as favorable as it now is as the Town continues to expand its services. The tax rate will have to rise. This can be best seen in the growth of the operating budget passed under Article 7 of the Annual Town Meeting. For example, the 1975 Operating Budget of $16,410,743 showed an increase of $2,046,513 over the operating budget that was passed under Article 7 of the 1974 Annual. These dollar totals do not consider the other monies appropriated under special articles in the various town meetings that take place during the year. A good example is the Special Town Meeting held in November. At that time over $500,000 was appropriated to meet the needs of running the Town. These realities have to be met, but hard choices between projects will have to be made during the next few years. It is not possible to take a no action stance. These pressures

mean that each member of the Board is going to have to turn his attention to long-range planning. Without some idea of where the Town should be five years or ten years from now, it will be difficult for the Board of Selectmen to determine policy that will help us reach those objectives. The precinct meetings the Board has initiated are a vital link in this process. As more and more townspeople turn out for these meetings the Board can gather valuable input on what people want Plymouth to be. It is important for each and everyone of you to give us guidance as we move into the future.

PERSONNEL BOARD REPORT

The Personnel Board worked during the 1975 calendar year establishing the recommendations of the study which was made relative to the evaluating of the employees of the Town.

The Board also discussed with the Board of Selectmen and the Director of Public Works the establishing of several new positions which would be necessary to implement the structural change in the Department of Public Works. This change is still in the process of being completed by the Director of Public Works. The positions have been established and whatever changes within the division are made will be done at the recommendation of the Director of Public Works with the approval of the Personnel Board.

Since there were no contracts within the bargaining units ready for the Annual Town Meeting in April, the Board did not make any recommendations for changes in the By-Law or salary increases at that time. At the Special Town Meeting in November, the Board did recommend an 8 per cent increase for those employees under Schedule B of the Personnel By-Law. The Clerical and Department of Public Works employees having completed negotiations, the recommendation of the Personnel Board was to accept such contracts as signed. The remaining contracts with Police, Fire and Library employees having not been finalized, the Personnel Board made no recommendation. Changes were made in the Personnel By-Law to enable all Town employees to receive the same vacation benefits.

At the annual re-organization meeting of the Board, the following appointments were made: Alan C. Bishop, Chairman, George Morawski, Vice-Chairman and Dorothy Zupperoli, Secretary. Mr. Morawski is a new member of the Board assuming the vacated position of Mr. Peter Kane who found it necessary to resign due to heavy business commitments.

In 1976 the Board foresees a busy year due to the ever increasing changes in Federal and State regulations, all of which must be incorporated into the Town of Plymouth Personnel By-Law. The Board also looks forward to working with the various chairmen of the other Boards and Department Heads to properly and equitably administer the Personnel By-Law.

BOARDS AND COMMISSIONS

The Running of the Town has been traditionally dependent on Boards, Commissions, and Committees that have served at no pay. They have determined the policies by which the Town has been governed over the years. When the Charter went into effect many of these Boards and Commissions were replaced under the new structural form of government. However, the Town is still dependent upon many of these Boards, Commissions, and Committees. In this section of the Town Report we have a recap of their activities during the year. Among these committees and boards are the Advisory and Finance Committee, the Airport Commission, the Historic Committee, Election and Registration, the Conservation Commission, the Committee on Inland Fisheries, the Plymouth Harbor Committee, the Town Forest Committee, and the Retirement Boards. There is no coherent theme running across these reports since they reflect many different aspects of the Town Government. They are grouped here because they do not necessarily fit one of the functional areas that follow; however, the reader could find sufficient reason to put some of these reports in other spots within the Annual Town Report. All of the various Boards, Commissions, and Committees do not make annual reports so some gaps will be noticed by the discerning reader. Those Boards and Commissions that fit in a functional area, for example, the Planning Board, will be found in the functional area in which they belong.

PLYMOUTH AIRPORT COMMISSION

The airport commission is pleased to report another successful business year. With the general economy slowing down, the aviation business is steadily increasing. This is a reflection of the national trend in general aviation; as more corporations and companies are acquiring their own private aircraft, and, we also note the increase in family tourists arriving by plane.

Our main improvement project for the past year was the installation of a taxiway for our cross wind runway, and a runway and approach lighting systems. This taxiway has enabled us to use this runway with greater safety and efficiency and helps considerably to route air traffic away from the residential areas.

The new lighting system will be the latest system designed and approved by the F.A.A., and will increase safety in night landings. It should prove a great economy measure, as they will now be radio controlled; meaning we will no longer keep runway lights on when not needed. This project, as in the past, was funded 75% Federal, 20% State and 5% local.

The new Noise Abatement & Safety Committee started last year made up of our fixed base operators, pilots, and the airport management, has proved to be a great asset to the airport. The F.A.A., and the state agencies who helped organize this group have extended many compliments on their work, and recommended other airports to follow their set-up and guide-lines.

The Annual Airport FUN-Day sponsored by the Kiwanis, Rotary, Lions and Aero Clubs proved successful again this past year, so now this group, the United Service Clubs are planning for a special Bicentennial Airport Day next August.

The airport is now the home for 10 different companies, with 50 people receiving steady employment. These airport services available to all, include every phase of training, air taxi and charter service, as well as aircraft maintenance, radio work and aircraft painting. We have also noted an increasing number of school groups visiting the airport. It seems the students and schools are being more and more attracted to the wide variety of aviation associated careers available today.

The airport commission is pleased to report that your airport is still considered one of the finest General Aviation Airports for safety, management and upkeep, in New England; as stated by pilots, State and Federal Agencies.

CONSERVATION COMMISSION

The Conservation Commission activities during the preceding year have been numerous and varied. Foremost among the commission activities is the regulation of the development of wetlands. Many formal wetlands applications were received from individual homeowners wishing to improve their property on the beach or on a pond. Many discussions of the wetlands of the major developers, such as Heritage Hills and Boston Edison Company, have taken place prior to their submission of a formal application. Environmental considerations in many plans submitted to us by the Planning Board were reviewed and appropriate comments made.

A major thrust of the commission has been to establish an internal policy to handle wetlands violations and/or applications and to establish a line of communications between the commission and other town boards. This project is still in the works and should result in a considerable savings in time and effort when it is fully implemented.

Beach grass plantings were done with a new hybrid strain of beach grass on Plymouth Beach and Taylor Avenue Beach with very good success. Plymouth Beach was fertilized with a special graduated granular lime and a special fertilizer which promoted excellent root growth and established very hardy plants. As in previous years, many Christmas trees were placed on the beach to help build the dunes and establish a permanent beach. Thanks go to the many volunteers who helped in the project.

Two beautiful parcels of land, one parcel on Bloody Pond and another on Little Island Pond, were purchased by the commission for the Town bringing the total of conservation properties to four sites. In addition to acquiring conservation parcels, the commission has recently retained a firm to develop an Open Space Master Plan on which to base any decision on conservation development and future land purchases, Upon completion of the plan we will begin a program to implement some of the proposals in the plan, specifically a pond clean-up and development program.

The educational efforts of the commission were centered around lectures to civic groups and schools. A pond clean-up program was developed by the Ranger House at PCIS in cooperation with the commission for Hedges Pond. This was highly successful and we would like to promote more projects along these lines in the future. Many thanks go to the students of Ranger House for a fine job well done. The Conservation Commission is also participating in the Town Brook Beautification Program, Think Pink Project and Anti-Litter Days along with an erosion control program involving the cliffs in South Plymouth.

Before closing, the commission would like to take this opportunity to note the passing of our fellow member, Frank Bartlett, which deeply

saddened all of us. Frank's passing is a great loss to both the Commission and the Town of Plymouth.

We would like to thank the Board of Selectmen and all other Town Boards and agencies for their cooperation and assistance over the past year and we hope for continued cooperation in the future.

Respectfully submitted,

PLYMOUTH HARBOR COMMITTEE

The Plymouth Harbor Committee submits the following report in accordance with Article 102 of the 1962 Annual Town Meeting.

The Committee held regular or special meetings during the year to hear, study, and make recommendations on matters concerning Plymouth Harbor waterfront facilities and areas adjacent to Plymouth Harbor.

Although occasional difficulties were experienced in obtaining complete pertinent information on some projects, most problems and requests were accorded sufficient study and discussion to permit the Committee to give a fair and impartial opinion or recommendation. Several recurring problems were resolved or greatly reduced in cooperation with and under authority of the Harbor Master.

The long awaited Boat Ramp Project has moved closer to reality. Reports to this Committee by our original Ramp Committee Chairman Loupos indicates a start in 1976 and possible finish in time for the 1977 boating season.

The Committee believes the established one way traffic system now in effect in the Town Wharf area will continue to be effective and beneficial.

Respectfully submitted,

COMMITTEE ON INLAND FISHERIES

The Committee on Inland Fisheries wishes to report that the appropriation for the year 1975 was expended for a Spring stocking program in Russells and Saw Mills Ponds located in North Plymouth.

The Spring stocking consisted on 556 - 9 to 10 inch German brown trout and 239 - 9 to 11 inch Rainbow trout which were purchased from the Plymouth Rock Trout Company and liberated under the supervision of Lewis C. Schlotterbeck, Fish and Game Wildlife District Manager. Fishing in Plymouth Ponds has been good this past season and the Massachusetts Department of Fisheries and Game have released trout into the Ponds to match the Town's appropriation.

We hope to start using money from the Philip Jackson Fund for the release of Coho salmon in Billington Sea and Town Brook once the fish ladders have been completed and the stream area cleaned.

Your committee requests that the sum of Seven Hundred and Fifty Dollars ($750.00) be appropriated for use in 1977.

Respectfully submitted,

H. H. Hamilton, M.D.
Martin B. Person, Jr.
Donald O. Tracy, Chairman

TOWN FOREST COMMITTEE

The year 1975 was one of much activity for this committee. Commencing in January meetings were held with the Plymouth-Carver Regional School Committee on the possible use of town forest land for a school site, meetings that went on for about 4 months at the end of which this committee rejected the school committee's proposal. After a pause of about 2 months meetings were resumed again at the school committee's request this time the final outcome being decided at the special Town Meeting in November at which time the Town Meeting Representatives turned down the use of town forest land for a possible school site.

The make-up of this committee changed several times during the course of the year as a result of 2 members resigning for various personal reasons and 1 member moving out of state.

After all the delays the newly organized committee is now on the move. The state technical environmental team is drafting a master plan for this committee for the development and management of the town forest. The plan includes timber typing the stands of wood in the forest, brushing, thinning and pruning, laying out of nature trails, the possibility of designating certain areas for picnicking, and a limited amount of recreation on the 2 ponds on which the town forest fronts. There will also be additional tree planting in certain designated areas. Several local Boy Scout troops are going to help implement some of those recommendations as well as other manpower forces that will be made available to this committee. Within the next few weeks a new survey of town forest land will be undertaken by the town engineering department with the result that a new map will be drawn providing valuable information not only for the town but for this committee as well. It is our hope that with all this activity planned physical improvement will be visible by the end of 1976.

Looking into the future our long-range plans are for the eventual acquisition of additional contiguous acreage resulting in expansion of the town forest this depending on the availability of funds on the federal, state, and local level.

In closing we want to thank Mr. Austin B. Mason, district forester for the Commonwealth of Massachusetts, who has given much time to this committee in helping us formulate our plans without whose assistance our task would have been extremely difficult if not impossible.

Respectfully submitted,

Philip S. Tinti, Chairman

RETIREMENT BOARD

The Board of Retirement presents herewith its report covering the activities of the Contributory Retirement System for the calendar year 1975.

The most important legislation passed in 1975 affecting Chapter 32 was Chapter 684, Act of 1975, which amends Section 102 of Chapter 32 by inserting the words "subject to appropriation" into paragraph (a) of said section. Interpretation of the effect of this amendment and the details of its implementation pose many problems and, as of the end of 1975, the situation is one of utter chaos. Suffice to say, there will be no automatic cost-of-living increase in January 1976. Whether or not there will be one retroactive to January will depend on the action of the town at town meeting.

There were nine non-contributory pensioners and three beneficiaries receiving retirement allowances for the Town as of December 31, 1975.

FINANCIAL SERVICES

This section of your Town Report contains all of the information that tells you about the financial stability of the community. Here is the heart of your town functioning as described by the actual appropriations, expenditures, collections, and assessments. This part of the book contains reports from the Town Accountant, the Treasurer, the Town Collector, and the Assessors. After the Town Meeting establishes what expenditures can be made during a fiscal year (this action takes place at the Town Meetings) the Town Accountant sets her books up to reflect these appropriations. At the same time the Assessor's set the new tax rate that will be necessary to provide the revenues to enable the Town to meet its obligations in providing services to the townspeople. After the tax rate has been set, the Town Collector sends out the necessary bills required to collect these revenues. In Massachusetts such bills are sent out twice a year, once in May and once in November. After collecting the monies to be paid and after justifying his books, the Town Collector turns his receipts over to the Town Treasurer. The Treasurer is responsible for banking and investing these funds as well as paying the bills that are approved by the Town Accountant and the Board of Selectmen.

REPORT OF THE TOWN ACCOUNTANT

I submit herewith report of the financial transactions of the Town of Plymouth for the fiscal year beginning July 1, 1974 and ending June 30, 1975.

"Free cash" as of July 1, 1975, for appropriation purposes during FY 1976 (July 1, 1975 through June 30, 1976), amounted to $2,864,206. This figure is obtained by subtracting the amount of uncollected real and personal taxes from the Excess and Deficiency figure, all as shown in Schedule F of this report. Of this amount $651,859.34 was appropriated at the November 1975 special town meeting. As of December 31, 1975 no provision has been made for the salary increases of the police, fire or library employees for fiscal year ending June 30, 1976. These funds must also be appropriated from the above "free cash", if and when negotiations are ever completed and a special town meeting held.

It would appear that appropriations made at the annual town meeting will never again represent the total operating costs of the various departments of the town for the following fiscal year. It is a very serious situation, but one which seems to have no solution. Employee unions can delay as long as they wish in settling their contracts, knowing that the employees will receive their full salaries retroactive to the beginning of the contract period. This means the continual expense of special town meetings, additional sessions which the town meeting members must attend, and, as happened in FY1976, the use of "free cash" to meet the ordinary operating expenses of the town. The tax rate will never reflect the total operating costs of the town for any given fiscal period.

Our computerized payroll system is of no advantage in figuring retroactive pay. Each employee's retroactive pay and retirement deductions must be computed in dollars and cents by the clerical personnel before it is fed into the computer for the issuance of checks. With regular salary increments effective for some employees in January and for others in July, incentive pay increments effective at various other dates, holiday pay and overtime rates all affected by each change in base salary, more and more of the accounting personnel's time has to be devoted to this detail work.

There were no overdrafts but the following unpaid bills were filed with this office:

The addition of Richard W. Drew, Jr. to our staff, as assistant town accountant, has been invaluable, especially since he came to the department with a substantial knowledge of the contributory retirement system laws and practices.

The several schedules are in the following order:

Schedule A. Cash Receipts and Cash Payments as reported to the Bureau of Accounts of the Commonwealth for the fiscal year ending June 30, 1975.

Schedule B. Departmental and all special appropriations and such receipts, including federal grants, as may be legally expended, with all payments from the same classified as to purpose, for the fiscal year ending June 30, 1975.

Schedule C. Estimated Receipts, other than from local taxes, as used by the Assessors in setting the fiscal 1975 tax rate. The schedule also shows the actual receipts from the same sources, as well as the actual receipts for the calendar year 1975, which the Assessors will require in setting the tax rate for fiscal 1977.

Schedule D. Revenue Account for fiscal 1975. Also Revenue Account for fiscal 1976, as of the setting of the new rate.

Schedule E. Excess and Deficiency Account.

Schedule F. Balance Sheet, June 30, 1975.

Schedule G & H. Bonded Indebtedness, July 1, 1975, including projected payments of principal and interest for fiscal 1977.

Schedule I. Trust and Investment Funds, July 1, 1975.

Schedule J. Calculation of the Town's borrowing capacity, June 30, 1975, based on the latest available equalized valuation.

Town Collector

ASSESSING DEPARTMENT

The primary function of the Assessors' Office is to establish assessment values on all Real and Personal property in the Town for the purpose of distributing the tax burden equitably among the various taxpayers.

The Assessors also compute the tax rate, which is basically a matter of taking the amount to be raised by taxation as determined by the Town Meeting, and dividing it by the total assessed valuation of the Town. This process, however, is actually quite complicated by the necessary adjustments in the computation which involves the State Cherry Sheet receipts and charges, the Town receipts and obligations, and the number of various other costs and offsets such as County and School assessments.

The Assessors' Office processes all statutory exemption applications, such as disabled veterans, widows, elderly, indigent and other special categories.

Another important function is the processing of all abatement applications, and any subsequent court appeals.

This office also processes all Motor Vehicle excise tax bills, including corrections and adjustments.

The Assessors have the responsibility of establishing other special assessments, such as those imposed on livestock, boats, skimobiles, and other recreational vehicles.

The day-to-day operation of the office involves a close interaction and interchange of information with the other Town departments, especially the offices of the Building Department, the Tax Collector, the Town Clerk and Treasurer, and the Town Accountant.

Set forth below are the pertinent figures for Fiscal 1976.

Board of Assessors
Lothrop Withington, Jr. Chairman
William L. Nolf
Michael F. Babini

The planning services of the Town include the Planning Board, the Redevelopment Authority, the Plymouth Development and Industrial Commission (PDIC for short), the Board of Appeals, the Design Review Board and the Land Use Committee. The case can be strongly argued that the Conservation Commission should be included in this grouping. The reasons why will be clear as the function of the different elements in this grouping are explained. The basic thrust exercised by each of these groups is a control over some part of Plymouth's physical environment. The one single instrument tying these groups together is the Zoning By-Law. The Planning Board has direct responsibility for subdivision control and planned unit development as outlined by the Massachusetts General Laws and our own Zoning By-Law. The Redevelopment Authority also has powers defined for it by State statutes and it has direct responsibility for planning change that would revitalize and rejuvenate existing developed areas of the town. Whatever is proposed by this authority must get Town Meeting approval before it can be implemented. The PDIC is charged with the responsibility of bringing new industry into Plymouth. Their activity primarily centers around the complete development of our Industrial Park and the continued development of the old cordage space. The impact of their success is generally seen in the creation of new employment opportunities within Plymouth. The Board of Appeals has far reaching impact on the Town's physical development. The primary responsibility of this Board is under a statutory authority that gives the Board the statutory power to waive given conditions specified in our Zoning By-Law. This overriding of the By-Law must be done within carefully defined boundaries as described in our state law. Their actions are defined by means of the variances from our By-Law that they allow or the special permits that they issue. The Design Review Board is a Board that was created by our Zoning By-Law to give advise to the Planning Board and the Board of Appeals through the Planning Board on the design characteristics of construction projects within the town. The specific charge concerns the compatibility and suitability of such a project with that portion of the Town in which it may be built. The last committee, Land-use Committee, is a three member committee consisting of the Treasurer, the Assessor, and the Executive Secretary. They are supposed to review and make recommendations regarding the use of town owned and tax-title land as the occasion arises. They are primarily concerned with the disposition of tax-title land since there are many other boards and committees concerned with the uses of town property.

A further word needs to be said regarding the Planning Board. Until the last several years, the Board had very little support staff so it primarily concentrated on subdivision work and contracted for what long range planning was done. The long range planning resulted in the familiar Compact I, II, and III. In the last several years a department has been developed with three full time people charged with the responsibility of not only serving the Board, but also with developing long range plans and documents. This last responsibility is particularly important and crucial to Plymouth because of the very rapid growth and development that the Town has been experiencing in the seventies. A growth rate that will bring our population to 50,000 in the 1980's. The burden this puts on the Planning Board should be obvious.

PLANNING BOARD

The year 1975 has seen a number of significant changes in both the composition of the Planning Board and the nature of its activities. With deep regret the board accepted the resignation of Mr. Richard F. Withington, 165 Sandwich Street, effective June 26, 1975. Mr. Withington had been a member of the board since 1968, and was part of the board which effected both the new subdivision regulations and the new zoning by-laws. He served as clerk of the board from March 13, 1972 to March 18, 1974. His extensive knowledge of the town will be sorely missed. Mr. Withington was replaced on August 4, 1975, by Mrs. Adele A. Manfredi, a lifelong resident of Plymouth.

During 1975, the board also had able assistance from three people hired under the Federal CETA Program: Ms. Linda Nolf (Planning Aide), Mr. James Bourgeois (Junior Planner) and Mr. John Waterhouse (Statistician). Mr. Bourgeois also provided assistance to the Design Review Board and Mr. Waterhouse provided services to the Plymouth Development & Industrial Commission. All three served in the Planning Board offices under Planning director, Ray Frieden, assisted by Ms. Sandra Burton, senior clerk. The Planning Board is in the process of filling the junior planner position approved and funded by the town meeting in November.

At the meeting of April 28, 1975, the board re-organized as follows:

Chairman	Louis J. Cotti, Jr.
Vice-Chairman	Michael F. Babini
Clerk	Robert G. Barnes
Clerk Pro-Tem	John Sherman Breen
Member	Richard F. Withington

Representative to the Conservation Commission: Robert G. Barnes

Following Mr. Withington's resignation and Mrs. Manfredi's appointment, the board again re-organized on September 22, 1975 as follows:

Chairman	Louis J. Cotti, Jr.
Vice-Chairman	Michael F. Babini
Clerk	Robert G. Barnes
Clerk Pro-Tem	John Sherman Breen
Member	Adele A. Manfredi

Representative to the Conservation Commission: Robert G. Barnes

The Planning Board has continued meeting regularly on the second and fourth Mondays of each month as well as special meetings as required. The work load has increased to the point where the board has adopted a formal policy of an agenda for these Monday evening meetings which closes at noon of the preceeding Wednesday in order to allow time for staff research into the issues raised. The board is currently meeting four times per month in order to move forward into master planning issues.

The board's activities with respect to subdivisions is summarized below:

DEFINITIVE PLANS:	NO.	NO. OF LOTS
Approved & Endorsed	1	3
Approved &-or Final	2	258
Action Pending	1	7
Disapproved	0	0
PRELIMINARY PLANS:		
Accepted	1	57
Pending	1	5
APPROVAL NOT REQUIRED:		
Approved	78	
Disapproved	31	
Total New Lots Created		65

As to the board's responsibilities under the new zoning by-law, the board reported on 45 applications for special permits and 62 applications for variances. Included were detailed reports and recommendations on a new proposal for Heritage Hills (2,000 units), the definitive plan for Phase 1 of Plymouth Landing (150 units) and the application for Pilgrim II. In order to more tightly control the development of planned unit developments, the developers of Plymouth Landing have been required to post performance bonds and to create an escrow account for purchaser's deposits.

The most significant developments of the past year, however, have been in the areas of master planning:

GOALS:

—The board has continuously considered each matter before it in terms of the village centers concept originally embodied in the zoning by-law adopted in 1972.

—The board has further emphasized the matter of establishing a detailed set of goals for the town in its recommendations to the Board of Selectmen for the state-mandated growth policy committee. We hope that we will have much more to say on this question in the near future as a result of the efforts of this committee.

DATA INVENTORY:

—Before Mr. Waterhouse left, he contributed greatly to the stock of information concerning population, housing, employment and economics.

—With aid of a state grant, the office has begun to establish a mechanism for using this and other information collected to aid in giving us a clearer picture of the town and the direction of its growth and development.

PROGRAMS:

—The board has participated directly and through the planning director in a number of developmental projects and programs:

—Programming for the 130 Court Street property.

—Planning for the transit system funded in part through the community development block grant.

—Input for state coastal zone management and water quality projects.

—Input to the selectmen as regards the selection of a regional planning agency and construction under section 6-H of Chapter 40 of the Massachusetts General Laws.

—Staff support for the tourist information facility committee.

TECHNICAL ASSISTANCE:

—The planning staff prepared the original community development application which enabled the town to get a $89,000 federal grant.

—Provided technical assistance to the Plymouth Development & Industrial Commission for a study of employment in Plymouth.

—Provided most of the staff assistance in responding to proposals to eliminate rail service to Plymouth.

—Provided additional criteria to the assessor for computerization of his records so as to form a useful data base for departments concerned with physical development.

—Provided the selectmen with a review of the proposed federal flood hazard boundary maps (which omitted several areas defintely subject to inundation).

—Provided the selectmen with an expanded map of urbanizing areas for the Department of Transportation for use in future decisions regarding transportation aid.

—Generally been available to town departments requiring planning services.

As the town goals become more detailed and the inventory more complete, the board expects to be able to move into master planning in a useful way and to provide the town with a real perspective on the future with which to make the important decisions affecting the town today and for many years to come.

REDEVELOPMENT AUTHORITY

During the 1975 year, the Plymouth Redevelopment Authority re-elected the following officers: Mr. John Droege, Chairman; Robert Wollner, Vice Chairman; James Pierson, Treasurer; and George DiLiddo, Secretary.

Preliminary stages of a possible Waterfront Project were expanded. Metcalf & Eddy, Inc., Engineering Consultants for the Board, prepared a proposal for the Feasibility & Planning Study, including Visual Specs of the Waterfront area, which were presented at Town Meeting.

Board Members continue to pursue all possibilities for locations of future projects, their planning and funding possibilities.

PLYMOUTH DEVELOPMENT AND INDUSTRIAL COMMISSION

At the end of 1975 and half way through the present fiscal year, the Plymouth Development & Industrial Commission continues its program of adding more new jobs to Plymouth's economy.

More and more we realize the value of new production jobs vs. service jobs created in our economy. A national downward trend in the economy has set in. According to surveys taken on a monthly basis by the Commission, Plymouth shows no loss of production jobs. As a matter of fact the number has not only held steady but new jobs have recently been added.

The addition to the Industrial Park of Tech Etch's million dollar attractive building with an increase of 54 employees was the highlight of our 1975 progress. Also, there is under construction a new 13,000 sq. ft. industrial plant being erected in the Plymouth Industrial Park with private investment capital for MIJA Industries, Inc. This company at present employs 60 and expects to add 40 new people upon completion.

Balsbaugh Laboratories, manufacturers of sophisticated water control equipment, have plans on the drawing board for a new building in the Industrial Park and have signed a pre-application with the Plymouth Industrial Development Corporation, a local bank and Small Business Administration for work to begin in the spring of 1976.

Two new members have been added to the Commission since the last Town Meeting. Mr. Richard O. West, Jr. was appointed to fill the vacancy of Allen Stapleton. Robert D. Meichsner was appointed as a result of Col. Leeman J. Hipson's resignation when he moved out of Plymouth. The Commission is very appreciative of the support and cooperation which both members have given for many years. The new appointees have willingly accepted the responsibility conveyed to them by their predecessors.

HEALTH AND SERVICES

The services described in this section of the report are directly related to what the Town provides in the way of health care to the residents. There are three reports in this section of which one, the Board of Health, is a town department under the general policy direction of a three-member board, while the other two represent services that the Town contracts for either through the Board of Health or the Board of Selectmen.

BOARD OF HEALTH

The Board of Health has had an eventful and productive year. For the first time rules and regulations were established for stabling of horses. They were adopted after a public hearing. Since then there have been occasional hearings of aggrieved individuals concerning stables and horses which we have attempted to settle judiciously between the complainants and humanely in the interest of the horses.

Dorothy Wilson, our animal inspector, has carried out her duties with diplomacy and zeal.

Richard O'Keefe, our department head, has been most cooperative. He has been adamant in his demands that individuals and corporations comply with the local and state sanitary codes. We have had meetings with various developers who have been innocently ignorant that the Board of Health must approve their plans, especially pertaining to sanitation and sewage. These individuals should be informed before approval by other boards, that the Board of Health is an important member of the official town community and that plans must be submitted for approval, not at the last minute, but in coordination with other involved departments. We have had some friction and misunderstandings with other departments and we have attempted reconciliation without surrender to our mutual benefit.

Our immunization clinics have been sparsely attended and we hope to coordinate the projects and desires of various civic groups to respect the authority of the Board in establishing various clinics.

Since we are responsible for the Public Health we shall continue to explore and enforce those regulations which are our responsibility to carry out.

We wish to thank Gladys Riels and our clerical help for their cooperation.

PLYMOUTH COMMUNITY NURSE ASSOCIATION

The Annual Nursing Service Report of the Plymouth Community Nurse Association, from January 1, 1975, to December 31, 1975, is herewith submitted.

During the twelve month period, our nurses made a total of 9861 visits to patients in the communities served by the PCNA. Of the 6659 Plymouth visits, 5560 were skilled nursing care and 1099 were made in behalf of the Plymouth Board of Health. 2792 visits were made to patients on Medicare and 1444 were to patients eligible for medical assistance under the Medicaid program.

Eleven Well Child Clinics were held in Plymouth in 1975, at a local church parish hall. A total of 188 infants and preschool children were seen and examined by our WCC pediatrician. Forty-nine tuberculin skintests, 175 various immunizations and thirty-six lead poison screenings were given at these conferences.

Ten immunization clinics were held at the Plymouth Town House, at which ninety-seven immunizations were given by the Board of Health physician, and the PCNA nurses.

Ten Chest X-ray clinics were held at the Jordan Hospital, staffed by the PCNA nurses. Of the 194 people who were x-rayed and examined, 164 were from Plymouth.

Thirty-two Plymouth patients received a total of 142 Physical Therapy treatments and four patients received a total of nine Occupational Therapy treatments.

The Greater Brockton/Plymouth Homemaker Service, in cooperation with our agency, provided a number of Plymouth patients with a total of 2221 Home Health Aide visits.

In addition to the above statistics, 598 tuberculin skin tests, (Mantoux), were given in the PCNA office, for food handler, nursing home and school personnel certification, of which 480 were to Plymouth residents.

In cooperation with the Plymouth Council on Aging, the PCNA conducted the Health Maintenance sessions throughout the year, which included 652 individual nurse consultations, 142 Vision Screening tests and 440 "Flu shots".

The Plymouth Community Nurse Association serves the residents of four towns: Plymouth, Kingston, Duxbury, and as of October 1975, the Town of Plympton. Skilled nursing care, under the direction of the physician, is offered in each of the towns served.

Ancillary services such as, Physical Therapy, Occupational Therapy, Speech Therapy and Homemaker/Home Health Aide services, are also available, through contractual arrangements with other agencies.

In addition to the care of the sick, the PCNA contracts with the Board of Health in each town served, to provide the public health nurse functions such as, Maternal & Child Health supervision, Well Child Clinics, immunization clinics, lead poison screening, acute communicable disease control, tuberculosis case finding and follow-up.

The PCNA is a certified Home Health Agency, and is examined annually by a representative of the Social Security Administration, for re-certification and eligibility to participate in the Medicare and Medicaid programs.

We have a Medical Advisory Committee, comprised of six local physicians, and a Professional Advisory Committee, made up of local townspeople, (from each of the four towns served), to advise and guide the governing Board of Directors.

Consultation with the Mass. Department of Public Health is done on a regular basis.

Our nurses work closely with other health and social agencies in the community, in their effort to give greater and more effective service, both in skilled, bedside nursing and health promotion.

Our nurses have continued to attend seminars and conferences throughout the year, to keep abreast with current nursing information and to maintain a high quality of nursing care.

We wish to thank the Plymouth Board of Selectmen, the Plymouth Board of Health, the School Department, the Plymouth Council on Aging personnel and the many volunteers and friends who continue to offer support and cooperation to our agency.

Respectfully submitted,

Margaret L. MacGregor, R.N.
Supervisor

MOSQUITO CONTROL PROJECT

The Plymouth County Mosquito Control Project is pleased to report on its activities during 1975. An important consideration in the implementation of our comprehensive mosquito control program is a concern for the environment as evidenced by the Environmental Protection Agency and Massachusetts Department of Public Health guidelines to which we adhere in each situation.

With cooperation from the Lakeville Encephalitis Field Station, and the Department of Public Health, the Project was able to expand its efforts to control EEE. Technical assistance provided by personnel from the Encephalitis Field Station enabled the Project to successfully treat approximately 3,100 acres to combat the seasons second brood of culiseta melanura, the vector of EEE virus. In late August, the Department of Public Health, with the assistance of our Project, undertook an aerial spray program which covered much of several counties. This aerial spray program was supported by the Encephalitis Field Station which supplied information concerning increasing virus activity in the Hobomock swamp and adjacent areas.

In 1975 the Project devoted a substantial amount of time to water management programs. These programs are ecologically important because they do not make use of pesticides. Our two backhoe units reclaimed 67,420 feet of trench in the past year.

During the spring and summer months the Project maintained and operated five vehicles equipped to spray adult mosquitoes. 41,444 acres were sprayed by vehicle units and 1,700 acres were treated for larvae by mist blower and pump cans. Our personnel also use hand tools to clear drainage pipes and streams of debris and alleviate stagnant water situations. The Project cleared 109,800 feet of streams and trenches by hand and treated 7,000 catch basins.

Salt marsh maintenance is of importance in coastal areas since many broods of sollicitan mosquitoes emerge shortly after each abnormal high tide (e.g.moon or storm tides which leave water pockets above normal tide levels). The Project uses insecticide sparingly in these areas and only those approved by E.P.A. and the Massachusetts Pesticide Board for such purposes. The most effective and durable control in marsh areas is the restoration of tidal circulation by the cleaning of ditches, therefore eliminating stagnant water. Salt marsh maintenance during 1975 included 7,000 feet of reclaimed ditch by machine and 75,640 feet by hand.

We wish to thank the various town departments for the cooperation extended to us during 1975 and look forward to a continued good relationship in 1976.

Respectfully submitted,

Arthur L. Westgate,
Superintendent

HUMAN SERVICES

This group of services relate to filling human needs other than physical health as described in the previous section. Clearly the case could be made for combining the previous section with this one. With the exception of the Library, the services described in this section are targeted to specific segments of the population. The library is designed to provide services to all segments of our townspeople. Logistically this is not an easy task in Plymouth because of the physical size of the Town. This problem has been partially alleviated with the addition of a bookmobile to the department. Up until 1968 the Library was solely run by the Library Corporation with some assistance from the Town through special articles for given projects. Today the library submits an operating budget and it is treated like a Town Department. This has produced an undefined relationship between the Town and the Corporation that gets more intricate as each year passes. Veterans' Services are targeted for those people in the Town who have served the country by being a member of one of the military services. This department helps veterans reintegrate into our society and it provides financial assistance for those who are in need. During hard economic times this department is more active than would normally be the case. The Council on Aging is a Town-operated agency that assists the retired members in our community. We have a very active council that is now housed in the Sisters of Divine Providence Property bought by the Town in 1975.

Included in this section is the annual report of the Plymouth Housing Authority. This agency is not a Town department in the sense that it has an operating budget supplied by the Town. This agency is responsible for providing public housing for low income groups, the elderly, etc. But then their report will tell you more about the needs they fulfill. The reader will also find a report from the South Shore Community Action Council (SSCAC for short). This agency which is not a direct part of the Town provides services oriented toward low income groups. Their report has been included to help the reader understand the full sweep of Human Services available to the taxpayer.

PLYMOUTH PUBLIC LIBRARY ANNUAL REPORT — 1975

The startling growth referred to in the last Director's Report (see Annual Report, 1974) is still with us, as a comparison of circulation figures in the appended chart will show. Although our capacity for growth is limited by the existing building facilities and the number of staff, our main concern in overseeing future library service in Plymouth, is to provide a constant quality of library service along with the ever increasing quantity of transactions per day. A short example will tell the story: in 1965 the Library carried out 104,523 circulations of materials, or 349 per day. In 1975, the Library carried out 209,286 circulations or 697 per day. Roughly speaking, the work load has doubled. To compound this, the library user of today is much more sophisticated and will demand a higher level of library service, such as advanced research, career guidance or stock evaluation, to name a few. Careful staff development and recruitment are one of the keys to future quality library service. Also, a program for In-Service Training, which was instituted in July, will allow staff members to attend school in the evenings in courses related to library work.

Another key to future quality service is the continued modernization of library procedures. To this end, we are taking a thorough inventory of materials for the first time in three years and we are weeding from the permanent collection material which is out-of-date, worn out, or no longer useful. The small gain in holdings reflects the inventory and weeding, and is a more accurate picture of our collection.

During 1975, we have also been engaged in a number of public service programs. The Storytime volunteers, led by Jean Coombs and Gail Jacobson; the guide to organizations in Plymouth produced by the Library; a continuing film series; the delivery of books to shut-ins; are a typical sampling of the kinds of special and on-going services the Library provides to Plymouth's townspeople.

Future plans for new projects include microfilming the Old Colony Memorial from 1822 to the present, reworking the check-out system to reduce the number of over-due materials, reinstating Lois Wood's storytelling in the public schools, and putting Plymouth's first bookmobile on the road delivering to areas without libraries.

Growth, although steady throughout the system, has been spectacular at the Manomet Branch Library. The number of items circulated this year has jumped by 148 per cent over 1974. The effect of the new location, additional staff and increased budget, can be dramatically pictured by comparing 1975's circulation (our current building, staff and budget) to our 1973 circulation (before increases were voted by Town Meeting) — use has increased 475 per cent. Future plans for the Manomet Branch Library, with Mrs. Grace Kar-

bott as Branch Librarian, center on further expansion of services and facilities to meet the very obvious need and desire for library services.

VETERANS' SERVICES

The Federally funded Supplemental Security Income Program, better known as "SSI" has alleviated the great financial demands of this office tremendously during 1975. At least 52 cases that were initially processed through this office are now receiving Federal benefits either partially or to the point of relieving this office of certain financial obligations. Also, their medical needs will be assumed by that agency. This represents a sizeable savings to the local taxpayer.

Extended Unemployment Compensation benefits has also relieved, to an extent, the usual demands of this office. The longer waiting and processing period, however, resulted in many temporary cases. Governor Dukakis signed emergency legislation to pay these benefits on a biweekly basis, which requires further adjustments and computation.

Implementation of a new law barring "Employables" from General Relief benefits in Welfare has resulted in numerous new applications. Several veterans who were employed under the CETA program are now completing their work tenure and are potential applicants for Veterans' Benefits.

During 1975 several memorandums were issued by the Commissioner of Veterans' Services implementing new procedures in processing cases. Perhaps the most important change involves hospital payments where a third party carrier or health insurance is involved. Certain budgetary limitations which the administration decided upon were also changed in 1975.

Our Community is indeed fortunate in having several VA medical facilities within reasonable distances. VA medical facilities are located in Brockton, Jamaica Plain, and West Roxbury. The largest outpatient clinic is located in Boston. Using the prevailing 1975 per diem rate, times the number of VA hospitalization days utilized in 1975, this monetary total will exceed one hundred thousand dollars.

President Ford signed Public Law 94-71 providing cost-of-living increases from 10 to 12 per cent depending on the severity of disability to those veterans having service-connected disabilities. One of the primary functions of this office is to concentrate its efforts in obtaining Federal Benefits through Compensation, Pensions, etc. Once again the totals of these efforts surpassed the one hundred thousand dollar mark for 1975.

G I enrollment for education and training benefits have set a new high. At least 60% of the Vietnam Veterans have used at least a portion of their eligibility. This compares well to the 50.5 percent of WW II veterans using these benefits and 43.4 per cent of Korean conflict veterans utilizing these benefits. Eligible, educationally-minded veterans should contact this Veterans Service office. These benefits were established primarily in recognition of the hardship and hazards assumed by these Americans in time of national crisis.

Public Law 93-289 provided payment for the first time dividends to approximately 600,000 Korean Conflict veterans carrying "RS" and " W" prefixed NSL policies in 1975.

Armistice Day was reverted back to November 11th during 1975 as a matter of historic and patriotic significance.

Job opportunities fell below the level of 1974. Hopefully during 1976 there will be a change and more opportunities will be available soon. Our office experienced an increasing number of assignments and liens during 1975 requiring more legal ramifications.

I wish to express my thanks and appreciation to our staff, Mrs. Goduti, Mrs. Brenner, Mrs. Torrance, and the local Division of Employment Securities for their cooperation and assistance.

Respectfully submitted,

Antonio L. Gomes

Veterans Agent

COUNCIL ON AGING

In Massachusetts, Councils on Aging are municipal governmental bodies authorized by state law. Chapter 495 of the Acts of 1956, allows a town to establish a Council on Aging and to make appropriations for its administration and programs.

In Plymouth, the Council on Aging was established by a vote of the town meeting of March 1972. Its function is to identify the total needs of the community's elderly population and to design, promote and implement services to fill those needs.

Services provided by our town Council on Aging for all residents 60 and over include: Drop-In Center open five days a week; free transportation on a dail-a-ride system within our town; a daily nutrition program in a congregate setting at the Plymouth-Carver Intermediate School on all school days; delivery of hot meals to elderly shut-ins; a monthly free individual health counseling session with the Community Nurse; information and referral services; RSVP volunteer station; home care services; Social Security and SSI counseling and income tax assistance under the V.I.T.A. program.

Councils on Aging are committed to change public policy in treatment of the elderly and to advocate participation by their constituents in the democratic process. The Plymouth Council on Aging has played an active role in our town's housing issue by advocating choice of the 130 Court Street property for the proposed housing site and by sponsoring Articles in the 1975 Annual Town Meeting that were voted for purchase of this property.

Christian W. Schembri
Director of Elder Affairs

PLYMOUTH HOUSING AUTHORITY

The following is the Annual Report of the Plymouth Housing Authority for the year ending December 31, 1975:

The most interesting part of the year for the Housing Authority ("interesting" in the sense used in China, where a familiar verse on an enemy is "May you live in interesting times") was the last quarter. The financial vicissitudes of New York City, with the resulting loss of investors for municipal notes, created a doubt, for the first time in our existence, about the success of our usual December issue of notes to keep the elderly housing program free of default. We squeaked by, with an interest rate of 8.75 per cent on our tax-free notes (equivalent to 15 per cent or better on taxable issues), and the experience proves that the financing system of the State Department of Community Affairs must be reformed.

Our Veterans' Project, built in 1949-50, was financed by 40 year bonds at 1 7/8 per cent, which we are still paying off with ease. When next we built a project (Castle Hill), we found the State had changed over to one-year notes. This was a bonanza for the banking community, bond counsel and others who thus would pick up forty commissions or fees over forty years instead of one. It even seemed to work well for the Housing Authorities, which were paying 4-5 per cent even in recent years. 1975 proved how dangerous a gamble it is to face sudden death each December 9th.

Another interesting item in late December was the purchase of 1.9 million dollars worth of Massachusetts Bay Transit Authority Notes by the Plymouth Housing Authority. This was done to help the State in a similar situation. These notes mature a month before our own in November 1976. The amount loaned by us was based on what we reasoned we would not have spent by then of the development money for the third housing project for the elderly.

At year's end the location of this project was still not settled. A proposal will be before the next town meeting regarding devoting part of the acreage at 128 Court Street to the 100 units we expect to build. Approval by the town will be followed by an application to the Board of Appeals, with notice to all interested town boards and departments, for a variance under Chapter 774. An environmental impact study must also be approved. If all approvals are received we should expect occupancy in late 1978.

We continued full occupancy of the Veteran's Project (40 tenants), Castle Hill (50 tenants), Southfield (60 tenants), our single family homes (6), and our leased apartments (17). All buildings are in good or excellent condition.

We are expecting momentarily to receive federal funds for 55 additional leased apartments.

We publish below the balance sheets for the various projects which are identified by number, as follows: 200-1, Veteran's Housing; 667-C present Elderly Housing, 667-3, proposed Elderly Housing; 705, single Family Houses owned by the Authority; 707, Leased Housing.

SOUTH SHORE COMMUNITY ACTION COUNCIL, INC.

South Shore Community Action Council Inc. is a nonprofit, Federal, State, local and privately funded anti-poverty agency, operating through Federal mandate in the towns of Carver, Cohasset, Duxbury, Hanover, Hull, Kingston, Marshfield, Norwell, Pembroke, Plymouth, Plympton, and Scituate. SSCAC provides social services, acts as liaison to State Social Service offices, functions as a clearinghouse of referral information, attempts to organize residents around relevant issues, and generally functions as an advocate for low income residents of the twelve (12) town council area.

The offices of SSCAC are located at 17 Court St., (rear), Plymouth, Mass., and the "Old Fire Station" at 27 Brook St., Scituate. These offices plus increased personnel brought in through the CETA Program has enabled SSCAC to expand the level of services being provided.

The overall economic climate of 1975 produced a demanding year for SSCAC. The unemployment statistics from the Division of Employment Security for the South Shore are among the highest in the State, and everyone is feeling the effects of the inflationary spiral. And this, coupled with the tremendous budgetary cutbacks in social services will increase the demand on our services. With the generous support of the Council Area Towns, SSCAC will continue to provide assistance to eligible South Shore residents, and attempt to develop new and innovative solutions to meet the area's social problems.

SAFETY SERVICES

The safety services provided by the Town cover the Police Department, the Fire Department including Forest Fire Suppression, the Harbormaster, Animal Control, Emergency Preparedness (the old Civil Defense), and the Sealer of Weights and Measures. There is little to say about each of these functions of which the citizen is not aware. The services provided by the Police Department go far beyond the combating of crime. Traffic control, keeping the peace, investigations, emergency medical service at the scene of accidents, and pedestrian protection are other areas of concern that come under the umbrella of the department. There is no place that the man in blue cannot be found in the life of the community. The Fire Department spreads it services into two main areas: 1)fire fighting or suppression when disaster strikes and 2)inspectional services necessary to insure that the public safety is protected in places of public assembly. With the new state building code in force this also spreads to the covering inspections for smoke detectors in all new construction including single family homes. Because of the many square miles of forests in the Town, forest fire suppression is a major concern of the department. The Harbormaster acts like a one-man police force in enforcing the Town by-laws which regulate the use of our many ponds and lakes as well as the harbor. During the warm weather he receives help from temporary employees. Animal Control covers the series of functions associated with the dog officer in most communities. The Town supports two full time dog officers who work staggered shifts so that there is always a man available to handle dog problems between the hours of eight in the morning to eleven at night. Animal control as it relates to hoofed animals and others as opposed to dogs comes under the Board of Health and the Animal Inspector. Emergency Preparedness is the Town agency responsible for the public safety in times of disaster, man-made or natural. In Plymouth this also covers the necessity for orderly evacuation or other safety measures that might be required in conjunction with Pilgrim station. This department also goes under the older name of Civil Defense since that was the parent body to this organization. The last function in the safety group comes under the Sealer of Weights and Measures. The protection afforded by this office is nowhere near as spectacular as the others, but it is a vital form of protection afforded the consumer by the Town. In that sense these services impact our lives day-in day-out.

FIRE DEPARTMENT

Herewith submitted is the annual report of the Fire and Forest Fire Departments for the year ending December 31, 1975.

PERSONNEL:

The department consists of 91 permanent personnel: The Chief of Department, 1 Deputy Chief, in charge of personnel and training, 5 Company Commanders (Captains), 12 Lieutenants, 68 Firefighters, 1 Apparatus Technician Mechanic, 1 Secretary-Clerk, 1 Fire Prevention Officer, 1 Fire Alarm Technician, and 1 part-time Custodian.

The Call Fire Forces comprise 4 Companies having an authorized strength of 55 men: 4 Captains, 7 Lieutenants, and 44 Call Firefighters.

As new fire stations are activated some level of transfer or additions to personnel will occur. The departments total authorized strength including permanent and call, is 146 people.

RETIREMENTS:

Captain Thomas Ruggiero retired on December 28, 1975 after 29 years of service. He entered the department on February 20, 1947 as a private and was promoted to Captain on Jan. 23, 1963. Captain Ruggiero was an outstanding fire officer. His efforts toward promoting fire prevention particularly throughout the public and private school system was one of his specialties. His total involvement and dedication to the Town and Fire Department was in the finest and professional tradition.

PROMOTIONS:

The following privates were promoted to the grade of Lieutenant on May 25, 1975:

Joseph Folger and David Strassel.

The following firefighters hold provisional appointments as Lieutenants. Permanent appointments will be made from those men who qualified by examination as soon as the Civil Service list resulting from the recent Lieutenants examination is completed and processed.

David Calhoun
Thomas Fugazzi
David Grennell
Richard Mazalewski
David Montanari
Edward Verkade

APPOINTMENTS:

29 provisional firefighters were appointed to the department on August 17, 1975 in accordance with the action of the Town Meeting in April of 1975.

This affirmative action was taken by the Town to man the 7 Hills and the Cedarville Fire Stations.

The Massachusetts State wide Civil Service examination was held on July 10, 11 and 12, 1975, with the final phase to be completed in the near future. When the results of the examination are known, the provisional appointments will be made on a permanent basis from the list of all candidates who successfully pass the three segments of this examination. These appointments will be confirmed after the candidates have successfully completed their probationary period. (6 months).

FIRE ALARM DIVISION:

Peter Gage, Radio Electronic and Fire Alarm Technician

The program of upgrading the fire alarm system is continuing. Both by improvement and overhaul of the existing system and the several important extensions are underway by way of new construction.

Completed in 1975 was the construction of new lines to the New West School, the new Fire Station on Route 44, and the Manomet Elementary School, and the South School.

The work of improving our existing alarm system is continuing with many steps underway. This will be an on going program for some time. A sound maintenance and construction program is established. In the future, by virtue of annual steps in the long range program, the department will bring our fire alarm system to its required optimum level of reliable effectiveness.

Throughout the Town over $35,000,000 of real estate is directly connected to the department's municipal fire alarm system, exclusive of the Pilgrim Station and the Cordage Park, which represents a tremendous investment similarly protected.

CONCLUSION:

To the Honorable Board of Selectmen and Commissioner Robert I. Pillsbury, for their cooperative interest and support; my sincerest thanks.

To other Town Departments for their helpfulness; my gratitude.

To our own Officers and men for faithful and devoted performance of duty; my deepest appreciation.

Respectfully submitted,
Arthur H. Lamb, Fire Chief

HARBOR MASTER

In the year 1975 we had a few changes in our Harbor Master Dept. A new Assistant Harbor Master appointed, who was very qualified for the position, and also a special officer to control motor vehicle traffic in the Town Wharf area on weekends and holidays. Both of these new appointees, in my opinion, did a very good job under difficult conditions and I would like to see them return this coming season.

Harbor Masters in Massachusetts have been very much aware of vandalism, stolen boats and equipment in their respective harbors, after many meetings through our association, a communication system has been initiated to attempt to curtail or slow these activities down. Although only in operation a little over 1 year it has, in our opinion, proven a deterrent and in many cases boats have been recovered through these efforts and as more and better communications are installed with the boating public we are optimistic that this problem will be brought under control.

Our dragger fishing fleet has been again increased during the past year. This brings our total of fishing draggers operating out of our port to 10 draggers, 1 offshore lobster boat and 1 sword-fishing boat, an increase of 4 boats from last year, using our facilities at the Town Wharf to unload their catches. Also many transient draggers utilize our docks when they are in the area. These vessels contribute greatly to the economy of the Town, as between 35-40 men are employed directly fishing and many more indirectly in associated businesses. This industry also attracts many tourists to the waterfront area.

The party boat fleet has remained stable for the past season with 12 boats operating from our facilities. The high cost of fish in retail markets attracts people to try and catch their own fish and at the same time have a day's outing out on the water with their families.

Exact figures on amount of inshore lobster fishermen operating in our area are not available without considerable research in State files. As in the past few years lobster prices have again been high and the yield diminishing. The State this year is controlling the amount of lobster licenses it is issuing in an attempt to halt the depletion of our lobster fishing grounds in State controlled waters, but generally the lobsterman has had a fair year with an average loss of gear due to storms.

Dockage space for boats at the Town Wharves is completely filled with fishing draggers rafting two or three abreast. Harbor mooring space is almost completely depleted with a few spaces left in certain areas and these will be filled this coming season. At the present time, December 31, 1975, there are 99 applications on file and posted in the Harbor Master's office for mooring spaces. These spaces will be filled by date of application with Plymouth residents having preference.

INSPECTIONAL SERVICES

Two departments are involved in these services: the Engineering Department and the Building Department. The strength of these functions very strongly affects the quality of our life. The Engineering Department serves two main purposes. The first is the design of the public works programs as they relate to road and drainage projects while the closely associated inspectional services insure that the construction of these projects matches the design requirements. Prior to the establishment of a full-fledged department, the Town was forced to hire consulting firms to provide these services. In those cases where a consultant was not hired no inspections were made. The problems that arose over the years due to the lack of constant inspections being made are familiar to most. Dovetailing with these inspections are those carried out within the Building Department. The Building Department is responsible for inspecting all new construction of buildings within the Town as well as inspecting all places of public assembly, etc. This department is also responsible for gas inspections, plumbing inspections, and wiring inspections. Taking these two departments together it is clear how the Town is able to protect the quality of our man-made impact on the physical characteristics of the Town. There is one other very important aspect of the Building Department. The reader of this report will remember that in many places within the report there are references to our Zoning By-law. This very important by-law is administered by the Zoning Agent who is a member of the Building Department. All building and construction projects except for roads and drainage projects must first receive approval from the Zoning Agent if required by the by-law.

ENGINEERING DEPARTMENT

During 1975 the Engineering Division, functioning as a full time Division of the Department of Public Works, accomplished many jobs for the D.P.W. plus other Committees, Boards and State Departments.

On-site sewage disposal systems were installed at Plymouth Beach, Manomet Fire Station and Bartlett Hall under the direction of the Engineering Division. Drainage mains were installed on Knapp Terrace, Cochituate Road, Arlington Road, Rocky Hill Road and Brook Street, as well as all lines and grades. Drainage studies were undertaken to solve problems in these areas of Plymouth. Areas involved were Summer Street, Alden and Allerton Streets, South Street and Bay Shore Drive at the property of Lippard and Sears.

Street reconstruction, by town forces, was completed under the Engineering and D.P.W. on Oak Street, Obery Street, Samoset Street and South Park Avenue. Permanent concrete bounds were set in streets previously accepted by the Town on Esta Road (8), Long Pond Road (66), Passage Way (5), Colchester Drive (15) and Carver Road (26). Bounds were also set because of being destroyed on Black Cat Road (4), Stafford Street (4), and Cedarville Public Landing (4). Before the end of the year, bounds will also be set on Buzzards Bay Drive.

Well locations for Water Division were located and plans calculated for Wells at Boot Pond, Long Pond Road (Indian Lots) Long Pond Road (Power Line Estimate), Cooks Pond Road and Catherine Sharpe property (off Route 3A). Many miscellaneous surveying and engineering work was done for various Town Departments.

The four (4) CETA employees in this Division have helped in a manner of good professionalism. Their loss next year will be hard to fill, but we plan to hire two new men that will be the basis of our permanent Engineering personnel.

Verne T. Porter, P.E.,R.L.S.
Engineer

BUILDING DEPARTMENT

On January 1, 1975, Plymouth building inspectors faced an enormous task when the new State Building Code became law. Adoption of the voluminous new law is the culmination of almost three years of work. Under its provisions, the duties of the State building inspectors will be assumed by the local inspectors, resulting in added duties and greater responsibility in areas not presently covered by individual cities and towns. In Plymouth this means additional inspections heretofore under the jurisdiction of the State Building Inspector, Mr. Thomas McCann, such as schools, churches, and other places of public assembly which must be inspected by Plymouth's Building personnel.

Other new duties of the Building Department will be the enforcing of other codes, rules, and regulations pertaining to building construction, reconstruction, alteration and repair. These include: Sections of the Board of Fire Prevention regulations; sections of the Board of Boiler rules currently enforced by the State Building Inspector; rules and regulations promulgated by the Architectural Barriers Board to facilitate the use of public buildings by the physically handicapped, and sections of the State Sanitary Code. Also, additional codes which are now being enforced by State inspectors transferred to Plymouth Building Department will be the Division of Health Care and Standards, Division of Industrial Safety, and Division of Outdoor Advertising Regulations.

A close coordinated effort is being maintained between the Fire Department and the Health Department of the Town to implement a smooth flow of inspections and enforcement. Many codes are overlapping with several interpretations within their scope. The use of Town Counsel, the State Building Code Commission, along with the State Building Supervisor, Mr. Thomas McCann, make up the committee on interpretations.

Code officials must acquire more than technical expertise to fulfill their professional potential. We must also perceive and be sensitive to the human problems that may determine the future of us all. The Building Department is the watchdog for the Town and its inhabitants, controlling construction of all types of buildings and the safety of all occupants. The inspectors' seal of approval is your almost-certain guarantee that you have a home or business that is safe and structurally sound.

Albert F. Saunders
Building Inspector

Ply zoning agent-11-bb

ZONING AGENT

Administrative duties and town enforcement of the Zoning By-Law are the main activities of the zoning office. Zoning applications are processed for the following: single and multi family houses, new businesses, industrial operations, municipal buildings, planned unit developments, any change in structure or land use, signs, structural additions or out-buildings.

After the Zoning Agent has checked the accuracy of the application and determined if it is an allowed use in the zone, a field inspection is made. The site inspection includes the following: a check of grading, landscaping, setbacks from property lines, topography of the lot, and drainage facilities.

After inspection and any needed changes have been met on the plan, a determination is made by the Zoning Agent on whether a zoning permit should be issued. Any applications needing a special permit or a variance are forwarded to the Board of Appeals after a determination has been made that all necessary information has been furnished and that it is accurate. Any permit issued by the zoning office or the Board of Appeals receives continuous attention in the form of field inspections to ascertain if all work being done is in accordance with the permits issued.

The Zoning Agent attends every Board of Appeals meeting in an advisory capacity. He also assists the Conservation Commission in performing field inspections on Conservation Commission violations and issues any cease and desist orders for them. The Zoning Agent represents the Town in most litigation proceedings involving zoning violations; therefore, close contact with the Town Counsel is a necessity.

This year (January 1975 to January 1976) has been a busy one for the zoning office. In the previous year 890 zoning applications were processed. This year's total is in excess of 1,200 applications. We were fortunate this 12-month period to have the help of two CETA employees to assist in the field work. Because of the additional manpower, we were able to complete a catalogue of all the existing signs within the town. The whole sign by-law section has received considerable attention throughout this year.

The Zoning Agent finds the work to be both challenging and enjoyable and plans to continue serving the town's best interest.

Richard A. Manfredi
Zoning Agent

PUBLIC WORKS

This is the last major division of the Town supported services provided to the taxpayer except for education which will be treated in the next section. Public works is the operational arm of the town services. This one group of public functions uses tax dollars to more directly change the physical characteristics of the town than any other group. Subdivisions and planned unit developments might affect a given area of the Town but with private money. The full magnitude of this impact can be best grasped by reviewing the divisions that come under this section. All water maintenance, reconstruction and construction; all sewer maintenance, reconstruction and construction; all road and drainage maintenance, reconstruction and construction; all tree work; all cemetery work; all parks work; all public building maintenance; all garbage pickup and maintenance of public sanitaries; as well as snow plowing come under this one department. Through this work many aspects of what Plymouth will be five or ten years from now is determined since the availability of these public services will frequently determine where new growth is most likely to occur.

DEPARTMENT OF PUBLIC WORKS

After the formation of the Department of Public Works in November of 1974, work has progressed very well.

Various Divisions in the Town are working in unison with each other as the work progresses.

In addition to the present Town Buildings under the Department of Public Works we have also acquired the care and maintenance of Bartlett Hall, Plymouth Beach Bathhouse, Cedarville Old Schoolhouse and 128-130 Court Street property.

The CETA Program is still in effect with approximately 25 employees working in the Town in all D.P.W. Divisions. It is hoped that some of these CETA employees will be absorbed in the Town.

Construction of various projects in the Town has been completed by CETA employees with the help of Town forces. These include a storage loft in the Municipal Garage, Storage Garage at Sewerage Treatment Plant and a new porch at the Stephen's Field Bathhouse. Also an addition to the Harbor Master's Building on the Town Wharf. The use of these employees has saved the Town many dollars in labor and construction costs. Water Division employees worked in the Agua Water section of Plymouth on water pipe construction, laying 19,392 feet of 8" A.C. Water Mains with appurtenances in the Manomet Beach Section of Manomet.

Monthly meetings are held each month with the Board of Selectmen to iron out any problems in the Town.

Meetings, as well as public hearings, were held with Boston Edison Company, Board of Selectmen and several residents of Manomet regarding the proposed Little League Field at White Horse Road on land that Boston Edison will be donating to the Town. This proposed field is still being considered and work being done.

Bids for D.P.W. materials were opened during the year and awarded by the Board of Selectmen for Bituminous Concrete, Liquid Asphalt, Salt, Pipe, Sand, Gravel and Stone.

Pavao Construction Co. of Swansea has started the Sanitary Sewer Separation S-1 Work in the Town. Streets being done are Main Street, Court Street, Main Street Extn., Cotton Street, Peck Avenue, North Street, Standish Avenue and Braunecker Road. This work should be completed during the early half of 1976.

Natgun Corp. has started work on the Pine Hills for the construction of a prestressed Water Reservoir. Sealund Realty Co. completed the foundation and pipeline from the reservoir site along Route 3A to Beaver Dam Road for this Water Reservoir.

Oak Street was reconstructed and completed to a Class A Road with bituminous concrete sidewalks and reconstruction of 15-inch concrete pipe with two catchbasins and manholes to change the present drainage flow.

Excavation and two 5000 gallon leaching tanks were installed at the Plymouth Beach Bathhouse sewerage disposal area and seven leaching beds installed with necessary pipe. Street light requests were held during 1975 as there are insufficient funds for light installations. More money will be requested in the 1976-77 Budget.

Various requests for road scraping, plowing, garbage complaints and general maintenance were handled by the Divisions.

As the first completed year of the Department of Public Works comes to an end I wish to express my sincere appreciation to all Departments, Divisions, Boards, Committees and Commissions that have cooperated with the Department of Public Works. We are looking forward to 1976 and the work that will be completed.

WATER DIVISION

The 121st Annual Report is hereby submitted by the Superintendent covering the calendar year 1975.

The total rainfall during the year amounted to 60.71 inches, which is about 14.7 inches above the annual average for this area.

The year ended with the water elevation at Little South Pond at 105.40 feet compared to 105.37 feet for the previous year end.

The pumpage for the year amounted to 1,255,940,300 gallons which is 42,658,500 gallons more than was pumped last year.

A 12" Ductile Iron main was laid from Beaver Dam Road, on State Road, to the new South Pine Hill Tank, a distance of 1,850 feet. The new 1,000,000 gallon South Pine Hill Tank, which is now in service will double the storage capacity for the Manomet Section of Plymouth.

On June 18, 1975, the new North Plymouth Well was put into service. This new well station pumped 102,353,300 gallons of water from June 18, 1975 to December 31, 1975.

The new Bradford Well was put in partial service this year and pumped 6,000,000 gallons of water to December 31, 1975.

Receipts from the sale of water, connections to mains, services rendered, etc. amounted to $430,883.99.

SEWER DIVISION

The Sewer Division, the Department of Public Works, has completed its first full year under the able directorship of Felix Carlino, P.E.

During this time, a much-needed storage building was erected at the Waste Water Treatment Plant on Water Street. We now have protection from the elements for our generator, rodder, mowers, and various other pieces of equipment which were being ravaged by the salt spray, rust, and weather. The Division is quite proud of this building, constructed by two CETA employees doing carpentry work for the D.P.W. as it unobtrusively blends in with the locale of the Treatment Plant.

The first part of the year saw the completion of the new sewer line running from Court Street, down Murray Street, across the Puritan Mills property, and to Water Street. The original line carries storm water and water from the numerous springs at the old Puritan Mills site out to the Harbor.

In the early months of 1975, Metcalf & Eddy, our Engineers, supervised the locating of existing lines and televising trouble spots. Plan for repairs and improvements for the worst trouble spots were then drawn up — the job was put out on bid — and Pavao Construction Company of Somerset, Massachusetts, low bidder, started work right after Labor Day. The largest part of this contract — constructing a storm drain from Brewster Street to Town Brook, — an inconvenient necessity — was suspended as of November 15 so as not to interfere with the holiday shoppers. Work will resume in January, weather permitting. When this line is completed, the storm water, roof runoff, etc. from all buildings on Main Street and Court Street as far as Brewster Street will go directly to the ocean rather than thru the Sewer Plant. This should cause a further reduction in sewage being processed at the Treatment Plant, thus allowing further legitimate tie-ins.

The Department of Public Works is presently working on a comprehensive plan of the entire Sewer System which, when completed, will enable the Division to better serve the Town.

Respectfully submitted,
SEWER DIVISION
Damion Smith, Superintendent

HIGHWAY DIVISION

I herewith submit a report of the work done in the Department of Public Works/Highway Division from January 1, 1975, to December 31, 1975.

STREET CLEANING

The two street sweepers cleaned approximately ten thousand curb miles from March 4, 1975, to December 31, 1975. The main street and the waterfront were swept every day and the side streets were swept in rotation. The sweepers also serviced Manomet, Ellisville, Cedarville and Long Pond. All sidewalks were cleaned of the winter sand in the spring by town forces.

ASPHALT SIDEWALKS

The construction of asphalt sidewalks were completed on the following streets: 3136' on the east side of Warren Avenue, 2446' on Cordage Terrace, 450' on Cherry St., 550' on Newfield St., 550' on Chestnut St., and 460' on the west side of Court St. in North Plymouth.

ASPHALT CURBING

A section of 550' of asphalt curbing was placed on Newfield St. and on the west side of Court Street.

DRAINS

At the Charles Cross property on Knapp Terrace, 195' of 12" ACCM pipe was laid to correct a water problem in the back yard swamp and the Holmes Terrace drainage.

Town forces constructed a drainage system from Arlington Road for a distance of 1780' to an existing drain on Cochituate Road. Drainage under Chapter 90 funds was completed from Gino's Restaurant to the Town Wharf, by Sealund Realty Corporation of Marshfield. Drain pipe was laid at the turn around on John Alden Road to relieve a pond of water at the residence of James King. The drainage from Oak St. to Murdock Pond was completed by town forces, land graded and loamed. The Highway Division constructed a drainage system at Russell and Sawmill Ponds for the Conservation Commission to stop the flooding in the back yards.

TYPE I CONSTRUCTION

2800' of Obery Street was constructed and widened from 21 feet to thirty feet from Long Pond Road to the County Farm entrance, with a 1½" asphalt surface laid by Simeone Corporation of Stoughton. 850' of North and South Park Ave. was surfaced with a 2" Type I mix completed by Simeone Corporation. 2100' of Oak Street was excavated, regraveled, regraded, new curbing replaced, extra drainage and new sidewalks constructed by the D.P.W./Highway Division. A surface of 3" of Type I mix was laid on a new gravel base by Simeone Corporation. Under Chapter 90 Construction, a portion of Route 44, Water Street and town Pier Road to the Lobster Hut, was surfaced with 2" of Type I mix by Simeone Corporation.

Jordan Road for a distance of 6500' was penetrated with ½ gallon of asphalt per square yard and covered with sand. Gunner's Exchange Road and Bourne Road will be sealed in the spring of 1976.

TRAFFIC AND STREET MARKING

Traffic lines, no parking lines, parking areas and crosswalks were painted by the Highway Division. Center guide lines were painted on Federal Furnace Road, Seven Hills Road, Clark Road, White Horse Road, South Meadow Road, Rocky Hill Road, two sections of the Long Pond Road, Herring Pond Road and portions of the Bourne Road. Several new street signs were replaced on Rte. 3A by the department with the Massachusetts Department of Public Works furnishing the signs, posts and hardware at no cost to the town. It is expected that many more will be set up in the spring. Vandalism has caused the department to replace several signs and posts during the 1975 year. Parking meter posts were painted and posts replaced where needed.

NEW EQUIPMENT

Two new 1 ton dump trucks were purchased from Marty's Inc. of Kingston with a trade-in of two 1970 ¾ ton GMC pickups. A four to six ton Hyster Roller was purchased from State Equipment Corporation of Burlington, Mass. Seven new snow plows were purchased from Route 128 Truck Body & Equip. Corporation of Waltham. A new sander body was purchased from J. J. Gregory Co. of East Providence, R.I.

The work in the outlying districts of Manomet, Cedarville and Long Pond have been carried out satisfactorily by the district foremen. Requests from Selectmen's Office and other divisions of the Department of Public Works, were taken care of as received by this office. The Highway Division men constructed sewer systems for the Manomet Fire Station, Manomet Youth Center and the new Plymouth Beach bath house. A damaged loading platform for the School Department was repaired. Cement park benches were made by the department and placed at the waterfront, Route 44 bus stop, Spring St. park and the information booth. Plymouth beach was cleaned of seaweed and the parking lot was graded when needed.

Other projects handled during the year of routine matter was patching, roadside mowing, brushing, gravelling, scraping roads, plowing, sanding, applications of calcium chloride, picking up rubbish, investigating complaints, meter repairs, setting up and removal of snow fences.

Respectfully submitted,

Ralph L. Bonna
Highway Superintendent

FORESTRY DIVISION

REPORT OF TREE AND MOTH SUPERINTENDENT

The Tree Division, now under the Department of Public Works, kept busy this past year as the usual program of fertilizing young trees was done along with trimming and pruning of the trees.

The Department of Natural Resources set the amount of $15,565. to be appropriated by the Town of Plymouth for Dutch Elm Diseased trees.

Twelve Dutch Elm Diseased trees were removed by Town forces as well as 53 other trees. All the stumps for these trees were removed. Approximately 113 new trees were planted in the Town, these being 33 London Planes, 53 Norway Maples and 25 Crimson King Maples.

Miscellaneous calls received were 49 for Poison Ivy and 125 for the removal of hornet's nests. Much roadside cutting and trimming was done throughout the Town.

Daniel J. Fratus
Tree and Moth Superintendent

REPORT OF THE INSECT PEST CONTROL

During the year of 1975 there were no trees sampled for Dutch Elm Disease as a new policy was adopted with the dead wood being cut out of the trees in an effort to save the trees. It seems that this is working out quite well. The usual amount of spraying was done for other pests.

Daniel J. Fratus
Insect Pest Superintendent

CEMETERY DIVISION

With the implementation of the Charter, this division is now under the Department of Public Works. This has proved convenient, particularly in our truck maintenance, now being done by the mechanics in the Highway Division. We thank them for their cooperation and efficiency.

Basically, the major part of our activities were spent on maintenance.

At Burial Hill we painted the chain link fence, and hand rails, as well as railings and enclosures on individual lots. We have replaced the windows in the Carriage House, tacking wire mesh in place to discourage further vandalism.

At Oak Grove and Vine Hills our regular program of maintenance was carried out. Some tree trimming and brushing was done by the department.

Some vandalism in the form of stones knocked or pushed over has been experienced. Whenever feasible we are endeavoring to repair them, the weather being favorable.

Our outlying cemeteries, Chiltonville, Manomet and Russell Mills, also South Pond required basic maintenance, including brushing and some tree trimming.

By a vote of the 1975 Town Meeting a piece of land adjacent to the White Horse Cemetery was turned over to the division. This will enable us to make landscaping improvements in that area.

We wish to express our thanks to all personnel in the division for their combined efforts, which result in the many compliments received from our area residents and many visitors.

Our thanks, also, to all other Town departments for their aid and assistance; especially the Police Department for their services and cooperation.

Walter F. Smith, Supt.

PARK DIVISION

The incorporation of the Park Division, within the newly established Department of Public Works, was assimilated within the new system with comparative ease and smoothness. This accomplishment was due to the belief of all Park Division personnel that amicable public services are the public's right, thus, under the able coordination of the new Director of Public Works, Felix Carlino, P.E., successful incorporation was attained.

During this past year necessary improvements and maintenance was given to sixteen parks, twelve playgrounds, eight swimming areas, seven tennis courts, eight basketball courts and nineteen buildings. Additional responsibilities pertaining to the upkeeping of grounds incurred with the Town's acquisition of the Sisters of Divine Providence property at 130 Court Street.

Registration of over 400 youngsters at the Manomet Youth Center, Bartlett Hall, with approximately a daily attendence of 100 children demands from our Director, Jack Medeiros and his assistant Kristine Pimental, a full time schedule of supervised athletics.

The summer playground program at Stephen's Field, John A. Siever Field, Veteran's Field and Brigg's Field as well as the swimming programs at all town-owned beaches, unfortunately, met with such a large registration that some children could not be accepted. We hope to remedy this situation in the 1976 Summer season.

Total receipts taken in by the Park Division during 1975 was $28,241.21. This denotes 12% of our entire budget is returned in cash receipts being turned back to Excess & Deficiency.

Respectfully,
Arthur Sirrico, Superintendent of Parks

EDUCATIONAL SERVICES

Since part of our educational system is regionalized with Carver, the educational services funded by the Town are under the independent authority of several school boards. The services supplied run the gamut from public kindergarten for five year olds to adult education. Once again the reader will see signs of rapid growth in the Town reflected by the building of new schools to meet the needs of a rapidly expanding student body which is a reflection of the rapid growth of the community.

ANNUAL REPORT OF THE PLYMOUTH SCHOOL COMMITTEE and THE ADMINISTRATION

As much as we shared the delight of parents, of children, and of teachers as we opened two new schools at the very beginning of last year, we found ourselves in September once again housing Kindergarten classes in rented facilities. In addition to the continued use of St. Peter's and St. Bonaventure's, we were most pleased to have available to us a certain amount of space at the newly acquired property at 128 Court Street. We want to extend our thanks to the parishioners of the two churches and to the Court Street Committee, all of whom have been most cooperative.

We have been delighted with the continued effort of Mr. Romeo Carletti, and his Building Committee. Through a most diligent effort they were able to have approved for construction the Indian Brook School. This was the last approval given by the state with the assurance of sixty-five per cent support on both principal and interest. This provided a magnificent savings to our tax payers.

It was our need for further construction in West Plymouth that caused Mr. Carletti's committee some unusual delays. A decision was finally reached on a section of the Wood property on Federal Furnace Road. As our year closed, plans for that construction was well underway.

Let us hope that the progress of construction is not unduly slowed. Present plans call for an opening of the Indian Brook School in September and the school on Federal Furnace Road in January.

We learned anew the disappointment that redistricting brings to certain neighborhoods upon the opening of a new school. It is feared that this is a problem that will be very much with us over the next several years. The principals are presently working on the new district lines to be established as we open two new buildings during the next school year. Be assured that every care will be given to this important task. It is our hope that as we expand we shall be able to refine the neighborhood concept, particularly for the early elementary grades.

We were most pleased to find our schools commended for our efforts under Chapter 766, this at a time when many communities suffered public censure. Much work has been done to help our special needs youngsters in a cooperative effort shared with nearby communities. As the year closed, Mrs. Keller accepted the responsibility for School Committee representative on the consortium that will evaluate present curricula and develop new area programs to better assist these needful youngsters.

Even as this has been a year of self-evaluation for the high school, our elementary people have been hard at work on a similar task. It is our charge to them that every effort be made to see that the educational dollar of our community is being spent on those ways that are most helpful to our young people.

We have taken particular pleasure throughout this year with the development of truly active home-school associations. The reports of their meetings have each month been presented to us, and we congratulate the parents and members of our school staff who have been so completely involved in this most important aspect of education.

Sincerely,

F. Edward Nicolas, Superintendent

Kenneth E. Peck, for the School Committee

Plymouth-Carver Regional School Committee Report

As many of you are already aware, this has been a year of decision for your School Committee. In our report last year, we told you of our plan to recommend a new high school designed to hold 2,000 students in Grades 10-12. At that time we were hoping that the vocational training needs of a number of our young people might be resolved through a regional effort shared with the towns of Marshfield and Duxbury. When it became clear that the regional plan would not materialize, we recognized our responsibility to provide for vocational training in any building program that we would recommend to the towns.

We have been pleased that many citizens have taken active parts in searching with us for the best solution to our problem. The administration presented several possible alternatives. At least two of these were entirely reasonable proposals, each offering its own relative strengths and weaknesses. Because there were separate ways to go that appeared to some of us as almost equally good, we did have a difficult time in reaching a decision.

At this time we are pleased to report that a consensus has been achieved. Your School Committee will be before you in Town Meetings soon to come to request your support for a four year Vocational-Technical High School, and for any other school space that may be found necessary. There will be full hearings on our final proposal sufficiently ahead of Town Meetings in order to allow the most informed vote. The Finance Committees will be holding separate hearings. We urge you to attend all such meetings so that that which is truly best for our children can be achieved.

We have been most pleased with the development and progress of the Community Alliance of Home and School. They have worked closely with the principal of our Intermediate School, Mr. Thomas Long. We congratulate all concerned for the manner in which they have worked together. Truly, the home and school must become partners if children are to be served effectively.

Our congratulations go alike to the staff and the students of both the Intermediate School and the High School. Despite increasingly crowded conditions, we feel certain that our educational programs have not been seriously impaired. We appreciate the understanding that they have shown during our extensive deliberations.

It is our most sincere hope that at this time next year we shall be reporting to you on the progress of our school construction. If we are able to hold present schedules, we shall open any new facility in

September of 1978. Your continued support of quality education is much needed if our goals are to be realized.

Respectfully submitted,

Mrs. Doris P. Krensky, Chairman
David A. Cappannari
Miss Jeannette G. Colas

ANNUAL REPORT OF THE PRINCIPAL OF THE PLYMOUTH-CARVER HIGH SCHOOL 1975-76

One of the primary objectives set for the staff for this school year was the self-evaluation program, which has consisted of an investigation of the curriculum to consider its strengths, its weaknesses, its direction. We were also to investigate the effectiveness of our implementation of the stated philosophy and objectives of our school. Our staff has found the experience of evaluation an interesting and profitable one, and it will help all of us to work toward the goal which we are all seeking — the continued improvement of secondary education in New England.

To deal with the serious overcrowding at the high school and to determine the type of construction to be built to overcome this acute problem, the school committee and the superintendent have arranged visitations to various schools for interested community citizens and the high school administration. Vocational schools, as well as academic schools, were visited during the past year. All interested parties have awaited the crucial decision facing the Plymouth-Carver Regional School Committee as to their recommendations to the towns on future building construction.

Among both staff and student body, everyone who knew Phyllis Boucher laments her tragic death. In the guidance department two new counselors were hired. Miss Comiskey transferred from the foreign language department, replacing Mr. Calvin who retired, and Mr. Maurice Worth replaced Mrs. Bogle, who is on a one year maternity leave. Miss Pamela White and Mr. John McCarthy were additions to the English Department, and Mr. James Lyness to the math department. Three teachers assigned to Plymouth-Carver Intermediate School during the school year 1974-75 were re-assigned to the high school, namely Mr. Hatch and Mr. Shea to the social studies department and Mrs. Dennull to the science department. Mr. Henry Cryer, from the Physical Education Department, was named Coordinator of Student Activities and Sports programs. He was replaced by Mr. Peter Murphy. Mr. Paul Urban was re-assigned from the science department

to boys' physical education. Mrs. Kostka was an additional staff member in business, and two interns from Northeastern were assigned to the girls' Physical Education Department, Miss Barbara Barros and Miss Leslie Benson.

Summer Workshops in the following curriculum areas were instituted in up-dating materials and new concepts on the field of Social Studies (American Studies), Business, and Man and His World. We are also taking advantage of The National Humanities Faculty grant awarded to us last year in helping to improve the curriculum. The social and cultural program involved many students and a multitude of activities: a play, concerts, dances, proms, and assorted field trips were highlights of the 1975 school year.

Successes of the athletic teams were major highlights in our sports program during the year, the most significant being the football team's winning the Old Colony League Championship for the second consecutive year and an invitation to the State's Super-bowl. We are indebted to Coach Paul Urban, his coaching staff and team for bringing us a most exciting year of schoolboy football. The girls' field hockey team captured the Old Colony League Championship and went to the finals of Division II State Tournament play. We would like to congratulate Miss MacDuffee and her players for an outstanding season. The boys' basketball team continues to excel under the leadership of Coach Rogers. The highlight of their season was upsetting Natick High in State Tournament play and finally being eliminated in the semi-finals by Boston English which eventually won the Division I Title.

The entire faculty and student body at Plymouth-Carver High School were pleased to welcome Zainal Muttaqin from Indonesia as our new American Field Service student. Zainal is living with Mr. and Mrs. John McNamara at 7 Winslow Street, Plymouth, Massachusetts.

The Class of 1975 received $188,670.08 from scholarships and financial aid; of the total received $29,936.08 is the amount of the local program. Once again we would like to salute the citizens of Plymouth and Carver for their generosity, support, and faith in our young people.

I would like to commend the faculty for their efforts and cooperation handling the difficulties that occur due to overcrowdedness. The administration would like to express their appreciation to everyone involved at the high school level for their support so that we can offer the students the best possible education.

Respectfully,
WILBERT P. CINGOLANI, PRINCIPAL
PLYMOUTH-CARVER HIGH SCHOOL
